WASHINGTON, March 28.—Reports
that an organized effort would be made
in the senate to delay the passage of
the bill repealing Panama toll exemption
aroused administration leaders to
day, while general debate of the issue
in the house continued to hold the public
interest.

The intimation that a prolonged filibuster in the senate had been determined upon, now that the first decisive battle had been won by the president, was reported to several senatorial supporters of the administration and it was suggested that Senator O'Gorman, chairman of the committee on interoceanic canals, already was delaying consideration of the measure by his committee.

Await Action by House.

Senator O'Gorman was asked when he expected to call his committee together to consider the subject, which already is before it. Senator Owen having introduced a repeal bill similar to the Senate measure two weeks ago. During the day, Senator Crawford, a member of the committee, had returned, the chairman having stated previously that he would not take the issue up in committee until the South Dakota senator reached Washington.

"There will be no meeting of the committee," Senator O'Gorman said, "until after the bill comes up in the house which probably will not be until next Wednesday. Senator Gilman alone," he said, "is not now and it will be unfair to act until every member has been given an opportunity to be heard."

Other Matters Pending.

How long the issue would be held in committee, Senator O'Gorman would not predict, declaring that there was other important legislation to keep the senate busy, such as antitrust and appropriation bills.

I heard several Democratic senators, who probably will vote to repeal the toll exemption, declare today that they did not look for a vote in the Senate within six weeks," the New York senator added.

Senator Owen, a Democratic member of the canal committee who is leading the preliminary fight for repeal, asserted tonight that any attempt to delay the bill in the Senate unduly would be foolish. He intimated that deliberate delay in the committee might result in forcing the issue before the Senate on a motion to discharge the canal committee from consideration of the subject.

"Any disposition to pettifog in this matter," said Senator Owen, "obviously would be a silly thing to do. As far

ON MURDER CHARGE

HOUGHTON Mich. March 28—Luke Plez a striking miner, who has been on trial this week at L'Anse, Baraga county, on the charge of having murdered Deputy Sheriff Pollock of Houghton county on October 28, 1913, was found not guilty today. The case was transferred to Baraga county on a change of venue.

Pleck was employed as a mine guard at the Idle Royal mine at the time of the strike troubles. As he was on his way to work on October 28, he was shot and attacked by a dozen men. Plez was shot, but killed Joseph Minerich, a striker, before he died.

Pleck, George Briski, and Mike Knez are said to have confessed they were in the crowd at the time of their arrest. Plez later repudiated his alleged confession and is now under indictment for perjury.

It is one thing to file papers
but quite another to find them.

The Globe-Wernicke way safeguards against the disappearance of important papers at the moment you most need them.

The Globe-Wernicke Safeguard System provides for both important and unimportant papers, by keeping the important names plainly in sight on tab folders on the right of the file while on the left unimportant miscellaneous papers are filed in alphabetical folders.

We will be glad to demonstrate to you just what these labor-saving and trouble-saving Globe-Wernicke Filing devices will mean to your business.

ULSTER REVOLT
GRIPS ATTENTION
OF ALL ENGLAND(Continued From Page One.)
over the crisis and the suffragettes are being wholly ignored.

The king's actions and attitude during the crisis are gradually becoming known. The attacks of the Radicals and Laborites on the king for his alleged interference in politics have subsided. The Unionists are criticising his majesty but quietly among themselves. The Unionists have the most reason to complain of the king's policy, as would appear from the most trustworthy accounts of the happenings at Buckingham palace during the frequent conferences which the king had with the cabinet ministers and army officers.

The king followed his ministers' advice from the beginning of the home rule controversy. While maintaining impartiality, apparently he had a personal leaning toward home rule.

The king and the members of his court were outspoken in their condemnation of Sir Edward Carson in organising the Ulster volunteer army, and resented his act in reviewing the volunteers as though they were a regular military body and in assuming prerogatives by reason of which the Liberal, named him "King Carson". Such an offense as Gen. Sir Robert Baden-Powell committed when he placed his portrait on postage stamps during the siege of Mafeking, is an unpardonable sin in the eyes of the court.

White Premier Asquith and Colonel Seelye were closeted with the king recently. Major Gen. Sir William R. Robertson, director of military training at the war office, accompanied by a colleague, visited the palace according to reliable information, and asked to be admitted to the conference on urgent business. The request was granted and the officers announced that they and a majority of the staff officers would resign immediately unless the government made its peace with the Curragh.

Premier Asquith's conciliatory statement to the Times the first interview which the premier has granted in office, was the result of the impression that this ultimatum had been delivered.

SENATE REPASSES THE
COTTON FUTURES BILLLegalized Pooling of Cotton Stricken
Out of Measure by Upper
House

WASHINGTON March 28—Friends of the cotton futures bill, repassed by the Senate today with the amendment legalizing cotton pools stricken out of the measure by the upper house, predicted tonight it would pass the house before adjournment. The course in the house had been smoothed. It was claimed by the action of the senate in striking out the pooling agreement clause upon request of Senator Smith of South Carolina author of the original measure.

Senator Smith said today he would seek in the agricultural appropriation bill to obtain \$100,000 to place upon every primary market in the south the samples of the government grade established by the bill and also samples of the vain spun from the various grades.

cup of coffee before going to work at daybreak without food.

Mr. Barrett made an investigation of Greek coffee houses in St. Louis. He questioned 23 girls employed in these places and he reported that some of the girls told him they got work in the coffee houses only on a promise to enter a life of immorality. The girls serve the coffee in the houses he reported, and take their places at the table with the men as the latter drink their beverages. Intoxicants also are served in some of these coffee houses he reported.

Many men out of work agree to pay employment agencies as high as 50 per cent of their wages. Barrett reported, and in some construction camps the foremen are in league with the employment agencies to discharge men after they have worked a short time and thus make way for new men. The fee then are shared by the employment agencies and the foremen.

The men employed in the construction camps he reported are charged 2 cents a month for hospital fees but are discharged if they get sick.

The food in the camps is unhealthy. The bunk cars are filthy, the cooks are often diseased and there is often great danger of epidemic in the camp. Mr. Barrett says.

Mr. Barrett also studied the mental attitude of the casual workers on this point he reports.

If this immense sum of these down-and-outs could get together and stay in one place long enough to become voters they could swing any national election and elect any ticket they put up. There is a deep terrible undercurrent of rebellion unrest and revolt among them because of the amazing amount of exploitation and oppression they are subjected to simply because they are tramps.

PASSENGER CARS MUST BE
KEPT IN SANITARY CONDITION

WASHINGTON March 28—The senate today passed the house bill directing the interstate commerce commission and the secretary of the treasury to promulgate regulations for keeping passenger cars in sanitary condition. Surgeons of the public health services are authorized to enter cars at any time to enforce the regulations.

SENATE MAY
BLOCK REPEAL
OF TOLLS ACT

(Continued From Page One.)

as Senator O'Gorman is concerned, "I think he is disposed to delay now. I personally expressed to him a wish that the committee might be called to consider the repeal bill which I introduced two weeks ago. If he does not take it up promptly, I can say this much that delay will serve no useful purpose."

"Senator O'Gorman seems to take the view that this controversy is a party asset instead of a party liability. I think the result of the vote in the house yesterday will have some effect inasmuch as it shows where the big majority of the party stands."

Lively Scrabble for Seats.

Debate on the repeal bill drew crowds to the house galleries today although the climax there was reached yesterday when Speaker Clark, Majority Leader Underwood and other Democratic chieftains met defeat in an effort to prevent limitation of debate on the issue. Hours before the gallery doors were opened today, the corridors were crowded with spectators and there were lively scrambles for seats later, men and women participating.

Two women engaged in a physical encounter for possession of a seat just before the house convened. It was a stirring battle, the hats and coiffures of the feminine contestants being rudely disturbed before doorknobs could part them.

The debate today was spirited on both sides, partly lines being disregarded. Representative Fitzgerald, chairman of the appropriations committee, who joined with Speaker Clark and Mr. Underwood in the revolt against the president was loudly cheered when he advanced to attack the repeal.

Toll Exemption Essential.

Mr. Fitzgerald asserted he had no sympathy for those who condemned the president for his views but declared his firm conviction that toll exemption for American ships was essential, "to provide effective competition with the transcontinental railroads, to increase the efficiency of our naval forces, and to prevent the control of an Isthmian canal by a European power."

The verbal warfare raged through out the day, holding the interest of the house membership as no debate has for many a day. In committee rooms however, confidences of leaders were in progress, where yesterday's division in the Democratic ranks were discussed.

Leaders of the present minority on the repeal issue, Democrats, Republicans and Progressives, already have begun consideration of what course should be followed in the motion to commit the repeal bill, with a motion will afford the minority their only chance to get an amendment before the house. Several compromise proposals are under consideration, but not agreed upon as yet.

Will Carry Fight to End.

The motion to reconsider will be made just prior to the final vote on the repeal bill.

Democratic leaders who met defeat yesterday were not at all discouraged. They determined today to carry the fight to the end and Speaker Clark is preparing to close the debate, probably next Tuesday, in opposition to the president's plea for repeal.

Representatives Stearns of Minnesota and Gillette of Massachusetts, from the Republican side, supported the repeal bill but the latter criticised the president for inconsistency in trying the repeal.

Representative Stephens of New Hampshire also supported the bill.

Catron Scores President

SANTA FE N. M., March 28—President Wilson's appeal for a repeal of the toll exemption clause of the Panama act was made the basis of an address by United States Senator Thomas B. Catron of New Mexico before the City Republican convention here tonight.

Declaring that President Wilson had repudiated his campaign pledges and the Democratic platform in urging the repeal, Senator Catron quoted from an alleged prelection speech by the president to New Jersey constituents, in which the president is alleged to have said the tolls exemption plank was not malfeasance to catch flies.

MOTORCYCLIST ESCAPES
WHEN MACHINE WRECKS

OAKLAND Cal. March 28—Losing control of his motorcycle, V. Seifert, a performer, ran off a cycle saucer track at an amusement park here today and dopped 25 feet into a crowd of spectators of whom seven were injured while Seifert himself escaped unhurt.

Mrs. Robert Lyons and Ray Golden, a 12-year-old boy, were seriously injured and rushed to a hospital. The other five sustained only slight scratches and bruises.

CHICAGO John B. Koettner, accused of murdering with a hammer low Mrs. Emma Kraft of Cincinnati, in a hotel here, took the witness stand today in his own behalf.

IOWA CITY, Ia.—The state board of education this afternoon accepted the resignation of John G. Bowman as president of the University of Iowa, effective March 31.

Easter Millinery

Suits and Coats

Our Easter Display is now complete. We have planned an extensive showing of the new Spring and Summer Suits, Coats and Dresses for the week of

MARCH 30 to APRIL 4

The invitation to attend is extended to all.

Dresses

The assortment of one piece dresses in the silks, rayon and poplins is complete. Every shade and style you might suggest. The prices are right.

Suits

The tailored suits are quite dressy this season. Short jackets handsomely lined and trimmed with silk and lace. All the tango shades are found here. The prices are moderate.

Coats

The most complete line in the city. Serviceable and comfortable are coats, handsome in appearance, even to the degree of luxurious. Bright colors and rough weaves are the characteristics of the spring coats. Always right in price.

Millinery

Easter Millinery in all the beauty of spring. Fresh, dainty and so pretty—the bright flowers and high colored ribbons combine to produce a pleasing effect.

We invite you to visit our Millinery Parlors.

All orders executed promptly. We are here to please you.

FLOOD CONDITIONS

IN NEW YORK ARE

BECOMING SERIOUS

causing the dispatch of trains over the New York Central tracks.

At Corning the Chemung river is 10 feet above normal and has flooded the highways west of the city.

At Olean the Allegheny river has overflowed its banks and the southern portions of the city are under water.

With every river and creek swollen over its banks by a steady downpour during the night, flood conditions tonight were far worse than throughout the southern part of the state. From all points came news of a blocked traffic condition, streets inundated and much property damage.

Representative Stephens of New Hampshire also supported the bill.

Kaufman's
EVERYTHING FOR EVERYONE

From the London Telegraph

Mr. Birrell, chief secretary for Ireland, attended a crowded company at the Bristol Press fund dinner by relating a unique ghost story, which he introduced in his response to the toast of "Literature and Journalism."

In referring to a recent speech by

Dr. Silvanus Thompson on the importance of science, Mr. Birrell said:

"I don't know, my lord mayor, whether you ever had bad dreams, but I have been haunted ever since I was

almost a boy by the constant repetition

of 'to me ergo' and 'ergo.' It is this

I dream I am walking about somewhere in some plain or desert, and I suddenly encounter the agitated ghost of Sir Isaac Newton

"Now," he says, "I want you to tell me in a few words, for I have only a quarter of an hour left, all that has

happened to the race; the progress

How is it? I know what it was when I left it. What is it now?"

that has happened in the world of science since he left.

"Now," he says, "I want you to tell me in a few words, for I have only a quarter of an hour left, all that has

happened to the race; the progress

How is it? I know what it was when I left it. What is it now?"

"My heart sinks, and, covered with confusion, I stumble, I stammer, I become more and more

and more apparent, and at last the unhappy ghost throwing up his hands,

says, 'Oh, that old ignoramus,' and departs."

RAFFLE WINNERS BRING RESULTS

WE firmly believe it's high time we were fitting your new Spring hat. The spring season and Easter Sunday are just around the corner. We've grouped the creamiest creations from this old world's foremost makers, for your easy selection.

Fashion dictates higher crowns you'll find them here.

**DR. BARBOUR TO LECTURE
HERE BEGINNING APRIL 1**

The Rev. Clarence A. Barbour, D.D., one of the foremost Christian workers of New York city and for a number of years the pastor of the leading Baptist church of Buffalo, will be in Colorado Springs April 1, 2 and 3.

Mr. Barbour is the associate secretary of the religious work department of the international committee of the Young Men's Christian Association and the local association has arranged a full program for Mr. Barbour for next Friday.

At 8:30 Friday morning Mr. Barbour will address the student body of the High school and at 10:30 he will meet with the ministerial association and speak on "The Relation of the Church and the Association." On Friday evening at 6:30 a group of Christian workers, composed of ministers, the board of deacons, Sunday school superintendents and brotherhood men will take dinner at the Young Men's Christian Association to meet Mr. Barbour and listen to his address and discuss a program of religious work.

During the campaign of the Men and Religion Forward movement Dr. Barbour was at the head of team No. 1 which did valiant work in the religious life of the men throughout the country.

Brotherhood men and religious workers generally are asked to phone in for reservations for plates at the dinner to the general secretary of the Y. M. C. A. not later than Wednesday.

Persons Mention

D. Mitchell of Farmer City, Ill., is registered at the Alamo.

Hennette Makefield of New York is a guest at the Antlers.

Mr. and Mrs. W. Stoy of New York city are guests at the Antlers.

Mr. and Mrs. R. E. Wilson of Chicago are registered at the Alamo.

Miss Gertrude Young of Chicago is visiting in the Pike's Peak region staying at the Acacia.

Mrs. J. H. Dethick and daughter, Edna L. Dethick, of Elkhorn, Wis., are guests at the Acacia.

A. D. Morford of Topeka, Kan., advertising agent for the Santa Fe railroad, was in town yesterday on business.

Dr. and Mrs. W. V. Mullin left yesterday for New York where they will sail April 4 for a two months trip in Europe.

Mrs. D. C. Green of Florissant, Colo., was a guest of friends in Colorado Springs while here to hear the Julia Culp concert.

Mrs. William Norberg of 804 East Monument street, who underwent a serious operation about two weeks ago at Beth-El hospital, is improving rapidly and will soon be able to leave the hospital.

M. S. Davis was called to Nebraska yesterday on account of the death of his brother Uriah J. Davis. Mr. Davis was proprietor of the Lick Livery of Colorado Springs some 23 years ago.

UNITED STORES
17th Street, between Main and Tejon

Asks Money Balm;
Sues for \$20,000

Oscar H. Hill of 341 East Costilla street filed a suit in the district court yesterday for \$20,000 damages against William McNulty of 934 East Costilla street, for the alleged alienation of his wife's affections. Hill is a painter and decorator and McNulty is a retired rancher.

The complaint states that the plaintiff married Olive Peck in Colorado Springs, May 12, 1902. Within the last two years, the plaintiff alleges, McNulty has alienated his wife's affections to such an extent that she applied for divorce last February. This, according to Hill, was the first intimation he had that his wife was not contented.

McNulty is a widower and has one grown daughter.

**Dean Cajori to Give
Next College Lecture**

Dean Florian Cajori will give the next lecture in the Colorado college series Tuesday evening at 8:15 o'clock in Perkins hall. He will discuss "Zeno's Paradoxes," disproving the possibility of motion, the importance of these arguments in the history of philosophy and mathematics. The questions raised by the famous Greek dialectician reach down to some of the most recent speculations in logic. Professor Cajori delivered a lecture on Zeno last summer before the mathematics students at the University of Wisconsin.

The Chief gusher opens Sunday from 3 to 4 p.m. Adv

**E. V. BRAKE TO LECTURE
HERE TUESDAY, APRIL 7**

Tuesday, April 7, is the date set for a lecture by Edwin V. Brake, deputy labor commissioner of Colorado on the investigation of the coal strike by the congressional committee. Mr. Brake was in attendance at most of the hearings of the committee and will give a detailed account of the proceedings as seen and heard by him personally.

The Chief gusher opens Sunday from 3 to 4 p.m. Adv

'CHRISTIAN EDUCATION' TO BE THEME OF SERVICES IN METHODIST CHURCHES TODAY

Bishop F. J. McConnell and Dr. D. D. Forsyth to Talk in Interests of Denver University

Adds we on the general subject of Christian education will be made today at special services in the Methodist churches of Colorado Springs by Bishop Francis J. McConnell and Dr. David D. Forsyth. The talks will be in connection with a movement now being made to secure an endowment fund of \$400,000 for the University of Denver. The general education board has offered one-fourth of this amount upon condition that the remainder is subscribed before November 1, 1914.

Tomorrow a conference will be held between Dr. W. T. Scott and other local people interested in the matter, and Chancellor H. A. Buchtel of the university and Dr. James F. Harris, secretary of the endowment committee. Following this conference an active campaign will be made.

The University of Denver recently received an offer from the general education board (Rockefeller endowment) of \$100,000, upon condition that an additional amount of \$300,000 should be raised before October 31, next, and that the outstanding debts of the university, amounting to about \$80,000, should be paid. In spite of some unfavorable business conditions, it is believed that this accomplishment is quite possible, the more so as it is the general practice of the board to make its offers only after a very careful examination of local conditions. The board expects that its conditions will be met and thus far, although it has extended aid to nearly 100 different institutions it has not been disappointed in a single instance.

In order to secure the best possible results from the use of the large amount (more than \$50,000,000) which has been placed at its disposition the board determined to select 100 American colleges and universities, which were found to be representative of the

BISHOP F. J. MCCONNELL

best work in this line, and which might be regarded as occupying strategic positions in the educational field. The present campaign of Denver university is therefore not merely for a large sum of money, not otherwise available for any Colorado institution, but also for the more important end of securing a permanent place upon the roll of honor of the general education board, with all that this recognition may imply for the future.

Nearly \$80,000 already has been secured to the university under the conditions imposed by the general education board and the very active and general interest that has been aroused is most encouraging as an indication of final results.

Has Toiled Every Day for Six Years

Woman's Story Shocks Charity Worker

Mrs. Jones hasn't had a vacation for more than six years. But how could she have had? She is the only wage earner in a family of six. She supports four children and a sick husband. She has washed and ironed every day for six years—Sundays included. But the worst thing in the case of the Jones family is that the health of Miss Jones is failing. When she breaks down entirely there will be no wage earner in this family of six. There is one saving clause in the story, however. Mrs. Jones may take a vacation. She will if there are enough good hearted people in Colorado Springs who will give a bit of money toward a week or so of rest for this toiler at the washboard.

The family lives near the Santa Fe tracks. Every day for six years the women has heard the trains laden with pleasure seekers pass swiftly by and she bent to her rubbing of the clothes her arms moving in rhythm to the chugging of the engine. She has never complained. The family had to be supported, and she was the only one to do it. Her husband is sick and cannot work. He is able to raise a few chickens and sell a few eggs. Manual labor is out of the question. The four children range in years from 16 to six.

The word "vacation" has had no place in the life of Mrs. Jones. The gaily illustrated pamphlets of the pleasure resorts have never meant anything to her. She has had no time to even read about the "ideal vacation for pleasure, good fishing, good meals, pleasant people and healthful climate." She has always toiled and always expected to do so. But she forgot the limit of physical endurance when she made her plans for overseas work.

Pain has already bent her body and unless rest comes soon there will be one to make money for the family. A visitor from the Associated Charities called at the Jones home last week

Perkins

Work will start immediately on remodeling the place and the undertaking business will be in vogue there within the next 60 days. The company contemplated moving for some time and will make a great many improvements in the new location. The house contains 16 rooms.

IWYILD IMPROVEMENT

SOCIETY MEETS TUESDAY

Organization Will Discuss Questions of Improvement and Methods to Combat Flies

The Iwyild Improvement society will meet at 8 o'clock Tuesday evening at the Iwyild chapel. Charles T. Lowndes president of the Broadmoor society will speak of the need for local improvement societies and the benefits which can be accomplished by them when properly supported by the community. The necessity of getting an early start with the annual crusade against the fly pest will be discussed and Dr. Frank M. Shipman will present some facts concerning the transmission of diseases by flies. The meeting is open to all who are interested.

THE WOODPECKERS 1A1100

From "A Farmers Notebook" by C. E. Phelps

Heard a woodpecker tapping the trees in the high woods. How strangely it is constructed! If we chopped our teeth on a stick long enough to be heard a hundred feet off, at the end of an hour our jaws and gums would be so sore we could not bear it. But the woodpecker seems to suffer no inconvenience.

"Worn by Women of Style"

the most interesting ever held at the club, with the rooting for the teams a feature.

The teams for the match will be as follows:

Colorado Springs High school—Myron Grant, Francis Heuring, Thomas Graining, Mackay Solenberger, Palmer Collins, Margaret Thomas, Frances Curtis, Rheta Dively, Edna Schwartzrauber, Zola McPhetridge.

Cheyenne school—Harold Stetson, George Stetson, Fred Brauer, Edwin Corrin, Stuart Moffitt, Sadie Hinck, Marie Hall, Florence Morrow, Pearl Bibbs, Bertha Saulmon.

Colorado City high school—John Griffit, Lloyd Nought, George Joseph, Irving Morris, Paul Brandenburg, Nelson Griffin, Pearl Lisenby, Zella Michaela, Elsie Johnson, Frances Musser.

Boys' Club association—Christie Donald, Merle Pekett, Ed Hunke, Earl Pixley, Neilson Hunt, Clara Mullon, Eliza Griffin, Pearl Lisenby, Clara Linn, Irene Bretonning, Laura Grain, Eva Lindquist, Pearl Levering.

Colorado City high school—John Griffit, Lloyd Nought, George Joseph, Irving Morris, Paul Brandenburg, Nelson Griffin, Pearl Lisenby, Zella Michaela, Elsie Johnson, Frances Musser.

Boys' Club association—Christie Donald, Merle Pekett, Ed Hunke, Earl Pixley, Neilson Hunt, Clara Mullon, Eliza Griffin, Pearl Lisenby, Clara Linn, Irene Bretonning, Laura Grain, Eva Lindquist, Pearl Levering.

CHARGED WITH LARCENY

Both charged with larceny although on different cases two members of Company A Second regiment, C. N. G., were arrested yesterday and are being held at the city jail. They are Sergeant Charles West, who was implicated in the disturbance on Pikes Peak avenue several weeks ago and Private Ed Ray, who was arrested in Denver and brought to this city last night by Detective Rowan.

West, it is alleged, stole a watch from one of the privates of the company. The police say he has confessed. The watch is still missing. According to the police he was unfeignedly honest in robbing a number of trunks which were stored in the basement of the Lennox building where the armistice is located.

TWO RESIGN—The resignations of Miss Ruth Benton, teacher at the Lowell school and Miss Alice Volkman, telephone operator at the board of education, were received by the board at a regular meeting last night. Nothing of importance developed at the meeting and only routine business was transacted.

TOO LAZY TO GET UP—FOR RENT—Well-furnished rooms; three clean well-furnished houses; keeping rooms with bath close in. Winter rates all summer if taken at once. South Weber street.

FOR SALE—White Orrington head and 40¢ for setting. 227 E. Monroe. Phone 2474W.

FOR SALE—White Orrington head and 40¢ for setting.

HAD that feeling that comes along with Suits of getting out of the old and into the new? You'll feel it more than ever when you see these good looking suits we have ready for you.

Here's a model you'll like when you come to do your choosing short coat, long, wide, soft-rolled lapels, broad short collar; patch pockets; six-button waistcoat; snug shoulders; narrow trousers. It's only one of the many models made expressly for us by

Hart Schaffner & Marx
and Hirsh Wickwire

You'll see many very fine fabrics some of them imported, at \$25, \$30 and \$35, others as low as \$15 and \$18 wonderful values every one of them.

17-YEAR-OLD BOY HEIR
FOR MURDER OF TEACHER

LITTLE FAVES, N. Y., March 28.—Eugenio Gianini, a 17-year-old boy just out of a protective, is held in a courtroom today with the murder of Lydia Kuehl, teacher in a public school, and whose body was found a pile of wood in the basement of that school today.

He, who had been expelled from

last year, was reported to have com-

mitted the crime because he had killed his teacher.

This report could not be officially verified, however.

Miss Becker, who was the daughter of Rev. and Mrs. William A. Beecher of Seneca, near Auburn, and who was

at the time of the killing taught school in Poland for two years. Gianini, who was one of her most troublesome pupils, on her complaint was expelled from the school last June and sent to St. Vincent's protective, in Utica, from which he was released a month ago.

He sought out his former teacher, told her he intended to do better and implored her to visit his parents, who are reputable and well-to-do people in Poland, to explain how he might be received in the school. Miss Becker had been studying for missionary work and it is believed that becoming interested in the boy because of his repentant attitude in her desire to reform him, she walked with him to the lonely place where she was killed, on the way to the Gianini home and about half a mile distant from it.

Charles Gianini, father of the youthful prisoner, was a furniture manufacturer in New York, first coming to Poland to spend a summer and finally taking up his home there about five years ago. He is an ornithologist of no note and had contributed numerous articles on that science to mag-

azines.

Beautify Homes With Flowers and Trees Many Ways to Make City More Attractive

By C. H. GOTZ.
(Colorado School of Forestry).
Beautifying a home with gardens and plants, there is not only greater beauty added to the home, but whole region or city as the same is made more attractive and much greater importance. Thus too, comes the great educational value in the way of love for the beauty of flowers, shrubs, trees and plants. The civic pride, the value for improvement conditions in a house, city region, cannot be measured.

There is not a person who does not like the influence for good that comes to a community where everyone cultivates a small garden, rear vegetables and flowers. No matter how big or how little persons may do in doors or along the line of cultivation, they will generally, because it's a pleasure to parks and public areas more than if they had not done some endeavor along this line, as well as in the country there nothing more satisfying after the physical wants have been met, than to walk or sit on a lawn covered with perennial flowering plants, trees and trees. There seems to be a close relation between happiness, contentment and flowers, trees and plants. Perhaps it is because in every member of the family there is a common interest through having contributed his or her time to it and all receiving its benefits. A raised amid such surroundings, useful occupations gets more out of him and is better prepared for the one that spends its early

Easy to Make Gardens.

is a very simple thing to make one, and the work is intensely interesting to the children and parents. We need do anywhere, even here Colorado Springs, is to get more, yes, everyone, started in this.

Moral, definite instruction and encouragement should be given in out-of-door rooms and by the city government.

We need more missionary work in this line, and especially here we have from year to year people

from all parts of the east and west.

We should have beautiful homes,

surroundings, extensive, well kept

shady streets and cleanliness

where we should get the name

White City at the foot of Pikes

Peak, in an emerald of living green,

and then we hear of cities where

one sees it's imbued with the

beauty of making the city beautiful by

their own hands.

beautiful. At

a few families in one part of a

will be the missionaries who will

start a whole section to the planting

and making gardens. Well

efforts, with proper officials

are to carry out certain plans of

education, have brought good re-

sults.

A manner of laying out gardens

with taste and conditions. For

general rule the arrangement of trees

plants should not only harmonize

the planting along the street but

should give a pleasing effect to the surrounding. Let us abolish fences. To have vines-covered fences, clipped hedges and unattractive board fences divide off city lots destroys a pleasing effect and looks very unattractive to the eye. With all the front lawns along the street opening into one another there is procured the effect of a boudoir.

Very pleasing effects can be had in many places by planting castor beans against the porch or house with caladiums, cannas, colens or geraniums in front of them. The best results generally come by planting such shrubs as black mock orange and high bush blackberry against the house or in porch corners, with lower growing shrubs in front. This forms a bank of foliage rising from the lawn and the shrubbery effects are permanent and are almost as interesting when the twigs are covered with snow as when in bloom.

May Be Ornamental.

As to the backyard gardens these may be made either ornamental and useful by growing vegetables, or they may combine the two. We have two types of ornamental gardens: the purely naturalistic and geometric, artificial or formal. In the formal gardens such plants as canna, stocks, heliotrope, castor beans, caladiums, salvia, four o'clock, alyssums, etc., may be used with low growing plants as borders. These can be arranged in squares, circles, stars and other designs, with heavy growing grass lawns between these beds, and hedges of evergreen, privet, berry, etc., bordering the lawn and walk. If the garden is to be less formal there should be much open lawn and no flower beds should be in the center of the lawn because they minimize the size of the lawn and detract from the composition of the whole.

The natural gardens require the least attention, except watering, weeding and pruning as almost all plants used are perennials. They cost the least to maintain and give a pleasing winter effect. In such gardens all unsightly features, such as sheds, house foundations, porches, garbage boxes, etc., should be screened from view, by proper arrangement of high growing shrubs. In these informal or natural gardens there should be planted a few trees where they will form a canopy of green under which a rustic bench or hammock may be placed. If the back yard is to be used as a vegetable garden it would be well to separate it from the front yard by a hedge of some evergreen plants or trees.

The beauty of a home may be enhanced by the planting of plants and flowers in window boxes. The window boxes should be filled with rich soil that has plenty of humus and leaf mould in its composition, so as to give both nutr. and preserve the moisture. The plants generally used for these boxes are the following: periwinkle, wandering jew, nasturtiums, sweet pea, English ivy or other vines, umbrella palms, marguerites, geraniums, petunias, colens, begonias etc. The porch may be covered by the same kind of plants in boxes or in the ground. The porch boxes should be well

RUB BACKACHE AWAY WITH ONCE TIME OIL TRY THIS!

Rub pain right out with a tiny little bottle of "St. Jacobs Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism have stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into your back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn or discolor the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly and surely. It never disappoints! Adv.

fastened to prevent accidents. More hardy vines may be used, such as morning glory, wild cucumber, moonflowers, scarlet runners, dutchman's pipe, honeysuckle, Virginia creeper and bittersweet.

A place is necessary in garden work to get the best results. Plant your trees, then highest growing shrubs, first near the fence and in the corners, and then plant those which come last and be made in the spring.

The writer hopes that these few lines on the place that gardens and plants should occupy to make beautiful homes, villages and cities may bear fruit here and that Colorado Springs may become still more renowned as the Garden City of Colorado.

Y. W. C. A. Notes

Sunday, 5 p.m.—Dr. Samuel Garyin will speak at vespers on "For the Master's Sake." Miss Evelyn Sturdevant will sing.

Monday, 8 p.m.—Dr. W. W. Arnold will give a third lecture on "Bird Life," illustrated by live specimens.

Wednesday, 8 p.m.—Good Fellowship Club, Anna Krocsek, president, Miss Spaulding of Colorado college will talk on her experiences in Greece.

23 STATES NOW HAVE COMPENSATION LAWS

Committee Submits Report
on Investigation in U.S.
and Abroad

WASHINGTON, March 25.—Workers' compensation laws are rapidly superseding employers' liability laws as a method of dealing with the results of industrial accidents according to the federal bureau of labor in a report today on its investigations into the subject both in the United States and foreign countries.

The report reviews in detail the history of such legislation and presents the actual results to beneficiaries under federal and state laws. It shows that 23 states have enacted workers' compensation laws and that these laws have thus far been declared constitutional by the courts of last resort in Massachusetts, New Jersey, Ohio, Washington and Wisconsin. The law was declared invalid, however, in Montana because it permitted double liability and in New York because it was held to be in conflict with the state legislature. In New York, however, the constitution was amended last year and a new law was enacted.

The report says it is worthy of note that no country has ever returned to the liability system after having enacted a compensation law.

"While some desire is expressed in certain quarters to delay action until a uniform measure can be agreed upon," the report concludes, "it is apparent to the most casual observer that the rapid movement of the last five years is likely to continue its progress until the rule of proved negligence of the employer and the assumption by the employee of all risks not arising therefrom is superseded by the humane and equitable doctrine of making the industry provide for the human no less than the mechanical breakage and wear and tear."

INDIA LEADS IN TENTMAKING

From Daily Consular and Trade Reports.

The use of tents in India is so extensive that catering to the demand has become one of the most interesting and important industries in this empire. The chief center of manufacture is at Calcutta, which has the largest tent factories in the world and not only does an enormous domestic business, but also exports very largely to other countries.

Tents have peculiarly important uses in India, not only for military purposes, but for furnishing temporary residences and offices in localities and for occupations in which it would not be convenient or economical to construct houses. They are much employed, especially in the hill stations of India, to furnish annexes to private houses which may be too small to accommodate visitors, and they are also utilized by officers in charge of forests, railway and irrigation surveys, persons on hunting or exploring tours, etc., moreover, at times when any particular important event occurs in a city to attract large crowds of people, tents supplement the ordinarily very limited accommodation at hotels.

A notable instance of this latter use occurred at the Delhi durbar several years ago, when the great majority of visitors, including the king-emperor and queen-empress and all the Indian princes and nobility, occupied tents just outside the city. It is said that never before in any time of peace in the world's history had so many tents been pitched in any one place.

The popular use of tents is due not merely to the peculiar conditions of life in India and the more or less transient character of its population, but also to the fact that Indian tents are so excellently and elaborately made that, for most purposes for which they are required, they are just as comfortable, if not more so, than the average Indian bungalow.

The popular use of tents is due not merely to the peculiar conditions of life in India and the more or less transient character of its population, but also to the fact that Indian tents are so excellently and elaborately made that, for most purposes for which they are required, they are just as comfortable, if not more so, than the average Indian bungalow.

When father struck my mother the first time, I went into the hall and got a gun. I pointed it at him and told him twice to stop. Then I shot almost straight up in the air to frighten him. At the shot he made for me. I told him again to stop, but he did not. So I took the gun and attempted to hit him with it to protect myself. When he came close I struck him on the chin with my left hand, then turned to disentangle the gun, which had caught in some clothes hanging back of me. He grabbed my wrist, twisted it and broke it. We grappled. I threw him over on the bed and ran out of the house. He kept possession of the gun. I saw him dead, but did not know where he was going. I went to Collins' store, at 312 West Dale street, and phoned for a doctor to fix my wrist. When the doctor came, I told him how it happened. Then I took a street car, went to the police station and asked for the chief. I told him what had happened. The police said they had been at our house a few minutes before, and that my father said I had shot him in the hand. This is not correct, however, as the bullet went into the ceiling. I did not shoot at my father.

"I had no intention of interfering between my father and sister but I did wish to protect my mother." Count Serge Witte

BUDAPEST, March 28.—An interview with Count Serge Witte in which the former premier of Russia predicted another Balkan war is causing considerable agitation in official circles. The counts remark that the relations between the triple alliance (Germany, Italy and Austria) and the triple entente (England, France and Russia) were in no wise clear and coupled with the movement for increased military activities in Russia, has been taken by many to mean that Russia is aiming to gain control in the Balkans and to oppose Austrian influence. It is believed the Russian desire for a seaport which shall be open all the year round, will eventually lead to the seizure of some Balkan port or one of the ports in Norway or Sweden.

Schnell's Version of Shooting Affair

REFORMATORY FOR BOY SMOKERS?

From the Des Moines Tri

The federated temperance women of Des Moines, who are promoting an antigarette campaign among school children, assert the police are not instructed to arrest violators of the law.

The women declare that police say that no instruction for arrests has been given, and no arrests can be made without orders from the public safety department.

These women declare boys were taken to policemen for arrests under the law, but the arrests were refused.

It is further claimed the law requiring the posting of the law in public places has not been complied with in Des Moines.

"We have not been able to have arrests made because the police tell us very frankly that they are given no instructions to make arrests," Mrs. C. H. Gordon, an officer in the city federation of the W. C. T. U., said. "I do not see how we are going to get anything accomplished in law enforcement in Des Moines if no arrests are made for violations of that crime. There is a lot of smoking done by boys in Des Moines."

The Polk county juvenile court is cooperating in the general campaign to check the smoking habit among school boys. By order of Judge Lawrence De Graff, former of the juvenile division of the district court, one 16-year-old boy is on parole from the state reformatory.

The Rev. Mary E. Robbins of Wichita, Kan., who is in the city, will be retained by the federation during the preparatory election campaign to conduct an agitation against those candidates for the council who will not agree to enforce the antigarette law.

DULUTH, Minn.—A. C. Weiss, Dutch publisher, who suffered a relapse after an operation was today reported "out of danger." Mr. Weiss is at a Rochester, Minn. sanatorium.

AT ONCE! CLOGGED NOSTRILS OPEN AND
COLD-IN-HEAD OR CATARRH VANISHES

Instantly Relieves Swollen, Inflamed
Nose, Head, Throat—You Breathe
Freely—Dull Headache Goes
Nasty Discharge Stops.

Try "Ely's Cream Balm." Get a small bottle anyway. Just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dull headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any dealer.

MEAT CAUSE OF
KIDNEY TROUBLE

TAKE SALTS TO FLUSH MEAT
NEXYS IF BACK HURTS OR
BLADDER BOILS

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice; combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

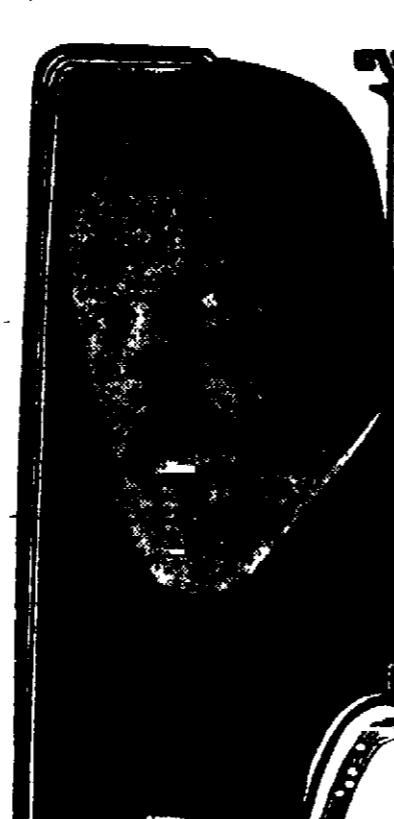

Jad Salts is inexpensive, cannot injure, and makes a delightful effervescent lithia-water drink.

In marriage

Four imprisonments, 10 important forgeries and a score of smaller ones. Cooper, who says his real name is Charles Ernest Chadwick, began marrying in Sydney, N. S. W. in 1895. A year later he took aamous woman in Brisbane, Queensland. In 1909 while serving here a term at San Quentin prison he married Tessie Van Velden, a prison missionary, and while she was residing in Oakland in 1910 he married Miss Anna Milbrath an Oakland nurse. For this last alliance his extradition is sought.

Take HERBINE for indigestion. It relieves the pain in a few minutes and forces the fermented matter which causes misery into the bowels where it is expelled. Price 50c. Sold by all druggists.

20 MEN HAVE NARROW ESCAPE IN Y. M. C. A. FIRE

ALTON, Ill., March 28—Twenty men narrowly escaped early today when fire destroyed the Young Men's Christian association building. The men were asleep on the upper floors of the four-story building and escaped by means of ladders and fire escapes. The loss is \$1,000. No one was injured.

An outline of Cooper's autobiography follows:

Utiful Homes With Flowers and Trees Ways to Make City More Attractive

By C. H. GOTZ,
Colorado General Secretary.
utifying a home with good
and plants, there is not only a
beauty added to the home, but
the region or city as the
is made more attractive and
a greater pleasure. Then too,
comes the great educational
way of love for the beauti-
knowledge of flowers, shrubs,
and trees gives greater love for
not merely as civic pride, the
value, the value for improve-
ment conditions in a home, city
or town cannot be measured.

is not a person who does not
the influence for good that
a community where everyone
as a result, receives more
and flowers. No matter how
how little people may do
in or along the lines of cultivation
they will generally, because
appreciate the gift and practice
more than if they had not
one neighbor along this line,
as well as in the country there
being more satisfying after the
physical wants have been
that to walk or sit on a lawn
with perennial flowering plants
and trees. There seems to be
a close relation between happiness
and flowers, trees and

Perhaps it is because in
each member of the family
interest through having
tributed his or her time to its
and all receiving its benefits. A
lived amid such surroundings
occupations gets more out
and is better prepared for the
than one that spends its early
idle play.

Easy to Make Gardens.

a very simple thing to make
and the work is intensely
to the children and parents.
need do anywhere, even here
in Colorado Springs, is to get more
everyone, started in this.
More definite instruction and
reinforcement should be given in ad-
vocates and by the city government
to the natural gardens require the least
attention, except watering, weeding and
pruning as almost all plants used are
perennials. They cost the least to main-
tain and give a pleasing winter effect. In
such gardens all unsightly features,
such as sheds, house foundations,
porches, garbage boxes, etc., should be
screened from view, by proper arrange-
ment of high growing shrubs. In these
informal or natural gardens, there
should be planted a few trees where
they will form a canopy of green under
which a rustic bench or hammock may
be placed. If the back yard is to be
used as a vegetable garden it would be
well to separate it from the front
yard by a hedge of some evergreen
plants or vines.

The beauty of a home may be en-
hanced by the planting of plants and
flowers in window boxes. The window
boxes should be filled with rich soil
that has plenty of humus and leaf
mould in the composition, so as to give
both nutrient and preserve the moisture.
The plants generally used for
these boxes are the following: per-
iwinkle, wandering jew, nasturtiums,
sweet peas, English ivy or other vines,
umbrella palms, marguerites, ger-
aniums, petunias, celosia, begonias etc.
The porch may be covered by the
same kind of plants in boxes or in the
ground. The porch boxes should be well

should give a pleasing effect to the sur-
roundings. Let us abolish fences. To
have vine-covered walls, clipped
hedges and uprightly board fences
divide off city lots destroys a pleasing
effect and looks very unneighborly to
the street. With all the front lawns
along the street opening into one another
there is procured the effect of a
boulevard.

Very pleasing effects can be had in
many places by planting castor beans
against the porch or house with
tulips, carnations or geraniums
in front of them. The best results gen-
erally come by planting such shrubs as
lilacs, mock orange and high bush
blackberry against the house or in porch
corners, with lower growing shrubs in
front. This forms a bank of foliage
rising from the lawn and the shrubbery
effects are permanent and are almost
as interesting when the twigs are cov-
ered with snow as when in bloom.

May Be Ornamentals.

As to the backyard gardens these
may be made either ornamental and
useful by growing vegetables, or they
may combine the two. We have two
types of ornamental gardens; the purely
naturalistic and geometric, artificial
or formal. In the formal gardens such
plants as canna, stocks, begonias, cas-
tor beans, caladiums, salvia, four
o'clock, astilbes, etc., may be used with
low growing plants as borders. These
can be arranged in squares, circles,
stars and other designs, with
heavy growing grass lawns between
these beds, and hedges of evergreen
privet, barberry, etc., bordering the
lawn and walk. If the garden is to be
less formal there should be much open
lawn and no flower beds should be in
the center of the lawn because they
minimize the size of the lawn and de-
tract from the composition of the

garden.

The natural gardens require the least
attention, except watering, weeding and
pruning as almost all plants used are
perennials. They cost the least to main-
tain and give a pleasing winter effect. In
such gardens all unsightly features,
such as sheds, house foundations,
porches, garbage boxes, etc., should be
screened from view, by proper arrange-
ment of high growing shrubs. In these
informal or natural gardens, there
should be planted a few trees where
they will form a canopy of green under
which a rustic bench or hammock may
be placed. If the back yard is to be
used as a vegetable garden it would be
well to separate it from the front
yard by a hedge of some evergreen
plants or vines.

The beauty of a home may be en-
hanced by the planting of plants and
flowers in window boxes. The window
boxes should be filled with rich soil
that has plenty of humus and leaf
mould in the composition, so as to give
both nutrient and preserve the moisture.
The plants generally used for
these boxes are the following: per-
iwinkle, wandering jew, nasturtiums,
sweet peas, English ivy or other vines,
umbrella palms, marguerites, ger-
aniums, petunias, celosia, begonias etc.
The porch may be covered by the
same kind of plants in boxes or in the
ground. The porch boxes should be well

RUB BACKACHE AWAY WITH
OLD TIME OIL TRY THIS!
Rub pain right out with a
tiny tip bottle of
"St. Jacobs Oil."

When your back is sore and lame
or lumbergo, sciatica or rheumatism
has stiffened up, don't suffer! Get a
small trial bottle of old, honest "St.
Jacobs Oil" at any drug store, pour a
little in your hand and rub it right
into your back, and by the time you
count fifty, the soreness and lameness
is gone.

Don't stay crippled! This soothing,
penetrating oil needs to be used only
once. It takes the ache and pain right
out and ends the misery. It is magi-
cal, yet absolutely harmless and
doesn't burn or discolor the skin.

Nothing else stops lumbergo, sciatica
and lame back misery so promptly and
surely. It never disappoints! Adv.

fastened to prevent accidents. More
hardy vines may be used, such as
morning glory, wild cucumber, moon-
flowers, scarlet runners, dutchman's
pipe, honeysuckle, Virginia creeper and
bittersweet.

A plan is necessary in garden work
to get the best results. Plant your
trees, then highest growing shrubs,
first near the fence and in the corners
and then plant those which come in
front. The lawn as a rule should come
last and be made in the spring.

The writer hopes that these few
lines on the place that gardens and
plants should occupy to make beautiful
homes, villages and cities may bear
fruit here and that Colorado Springs
may become still more renowned as the
Garden City of Colorado.

Y. W. C. A. Notes

Sunday, 5 p. m.—Dr. Samuel Garyn
will speak at vespers on "For the
Master's Sake." Miss Evelyn Sturdevant
will sing.

Monday, 8 p. m.—Dr. W. W. Arnold
will give a third lecture on "Bird Life,"
illustrated by live specimens.

Wednesday, 8 p. m.—Good Fellowship
club, Anna Krotchek, president.
Miss Spaulding of Colorado college will
talk on her experiences in Greece.

INDIA LEADS IN TENTMAKING

From Daily Consular and Trade Re-
ports.

The use of tents in India is so ex-
tensive that catering to the demand
has become one of the most interest-
ing and important industries in this
empire. The chief center of manu-
facture is at Cawnpore, which has the
largest tent factories in the world and
not only does an enormous domestic
business, but also exports very largely
to other countries.

Tents have peculiarly important uses
in India, not only for military pur-
poses, but for furnishing temporary
residences and offices in localities and
for occupations in which it would not
be convenient or economical to con-
struct houses. They are much employed,
especially in the hill stations of India,
to furnish annexes to private
houses which may be too small to ac-
commodate visitors, and they are also
utilized by officers in charge of forests,
railway and irrigation surveys, per-
sons on hunting or exploring tours,
etc., moreover, at times when any par-
ticular important event occurs in a
city to attract large crowds of people,
tents supplement the ordinarily very
limited accommodation at hotels.

A notable instance of this latter use
occurred at the Delhi durbar several
years ago when the great majority of
visitors, including the king-emperor
and queen-empress and all the Indian
princes and nobility, occupied tents
just outside the city. It is said that
never before in any time of peace in the
world's history had so many tents been
pitched in any one place.

The popular use of tents is due not
merely to the peculiar conditions of
life in India and the more or less
transient character of its population,
but also to the fact that Indian tents
are so excellently and elaborately made
that, for most purposes for which they
are required, they are just as com-
fortable, if not more so, than the aver-
age Indian bungalows.

In telling his story of the affair yes-
terday he said:

"It was after supper, and my father
was in the front room, reading. My
mother told my sister to wash the
dishes, and she replied, 'In just a minute.'
I was reading a magazine in a
room just across from the kitchen.

"When mother told my sister to wash
the dishes, father got up and attempted
to hit my sister but she dodged him.

"My mother got between them
and told him to use a strap, if anything.

"Then father struck mother on
the side of the face. The blow stag-
gered her, but she again stepped be-
tween father and sister. He struck
my mother several times.

"When father struck my mother the
first time, I went into the hall and
got a gun. I pointed it at him and
told him twice to stop. Then I shot
almost straight up in the air to frighten
him. At the shot he made for me.

"I told him again to stop, but he did
not do so. I took the gun and attempted
to hit him with it to protect myself.

"When he came close I struck him on
the chin with my left hand, then
turned to disengage the gun, which
had caught in some clothes hanging
back of me. He grabbed my wrist,

twisted it and broke it. We grappled

I threw him over on the bed and ran
out of the house. He kept possession

of the gun. I saw him dress, but did
not know where he was going. I went

to Colline's store, at 312 West Dale

street, and phoned for a doctor to fix

my wrist. When the doctor came I

told him how it happened. Then I

took a street car, went to the police

station and asked for the chief. I told

him what had happened. The police

said they had been at our house a

few minutes before, and that my fa-

ther said I had shot him in the hand.

"This is not correct however, as the

bullet went into the ceiling. I did not

shoot at my father.

"I had no intention of interfering

between my father and sister but I

did wish to protect my mother."

For the Stomach and Liver.

I N. Stuart West Webster, N. Y.,
writes: I have used Chamberlain's
Tablets for disorders of the stomach
and liver off and on for the past five
years, and it affords me pleasure to
state that I have found them to be just
as represented. They are mild in their
action and the results have been satis-
factory. I value them highly. For
me by all dealers. Adv.

COUNT SERGE WITTE

BUDAPEST, March 28.—An inter-
view with Count Serge Witte in which

the former premier of Russia predicted

another Balkan war is causing con-

siderable agitation in official circles.

The counts remark that the relations

between the triple alliance (Germany,

Italy and Austria) and the triple entente

(England, France and Russia)

were in no wise clear and coupled

with the movement for increased

military activities in Russia, has been

taken by many to mean that Russia

is aiming to gain control in the Bal-
kan and to oppose Australian influence.

It is believed the Russian de-
sire for a seaport which shall be open

all the year round, will eventually lead

to the seizure of some Balkan port or

one of the ports in Norway or Sweden.

Adv.

FOR THE STOMACH AND LIVER.

Get a small bottle anyway. Just to

try it—Apply a little in the nostrils and

instantly your clogged nose and

stopped-up air passages of the head

will open; you will breathe freely;

dullness and headache disappear.

By morning the catarrhal cold-in-head or

catarrhal sore throat will be gone.

End such misery now! Get the small

bottle of "Ely's Cream Balm" at any

drug store. This sweet, fragrant balm

penetrates and heals the inflamed

swollen membrane which lines the

nose, head and throat; clears the air

passages; stops nasty discharges and

a feeling of cleansing, soothing relief

comes immediately.

Don't lay awake tonight straining

for breath, with head stuffed; nostrils

closed, hawking and blowing. Catarrh

or a cold with its running nose, foul

mucus dropping into the throat, raw

dryness is distressing but truly

needless.

Put your faith—just once in "Ely's

Cream Balm" and your cold or catarrh

will surely disappear.

ADDITIONAL SOCIETY

American Music Society.

The American Music Society will meet Thursday evening at the home of Mr. and Mrs. J. Dawson Hawkins. The program, which will be given at 8:15 o'clock, is most attractive and is as follows:

Piano—Concerto A minor.....

Edward MacDowell

Mrs. Hawkins
(Orchestra Part on second piano played by Mrs. Faust)

Songs—Le Mariage des Roses.....Cesar Franck

Les Papillons.....Ernest Chausson

Miss Marguerite Ballard

Violin & Piano—Sonata, Op. 108.....Johannes Brahms

Allegro.....Poco presto e con sentimento

Adagio.....Presto agitato

Mrs. Howe and Mrs. Faust

Songs—A Secret from Bacchus

Summer Changes.....Bruno Huhn

Mr. Walter Thomas

Piano—Kleiner Waltz.....Ferdinand Garreno

Marche Fantastique.....Rudolph Ganz

Miss Henriette Templeton

Duet—Benedicimi tu, "The Jewels of the Madonna".....Wolf-Ferrari

Miss Jane Warnock and

Accompanist—Miss Florence Stevens and Miss Natalie Shettle

Pioneer Society Dance.

The practice dance given Monday evening by the El Paso County Pioneers association in the Alamo hotel was largely attended and proved most enjoyable. This was scheduled to be the last of the series, but owing to the great enjoyment there was a general insistence that they have another one. It was finally decided to have one more dance on Monday, April 6.

Camp Fire Girls Entertained.

Mrs. Arthur Gay Brigham entertained the girls of the Camp Fire of the Blue Bird, at her home yesterday afternoon. A most delightful afternoon was spent by the society.

Surprise Party.

Mr. and Mrs. M. Von Boston, 114 East Del Norte street, entertained Thursday evening at their home, complimentary to Miss Jessie Jeremy, whose birthday they celebrated. Music and games were the features of the evening, after which supper was served. Those present were Miss Jeremy, Mrs. Merle N. Smith, Mrs. Louise Gorton, Mrs. R. P. Carson, Mrs. T. W. Cox, Mrs. Martha Eberhardt, Mrs. Minnie Van Gorder, Mrs. W. L. Gray, Mrs. E. Evans Carrington, Mrs. F. Lilly, Mrs. Rice, Mrs. Laura E. Cochran, Miss Pearl Bowell, Miss Grace Little, Miss Hilda Carrington, Miss Frances Bartlett, Miss Maybelle Thompson, Miss Laura Thompson, Miss Bertha Williams, Miss Frances Latas, Miss Agnes Jacobson, Miss May Van Dusen, Miss Alice Lacock, Miss Jennie Ladd of Detroit, Mich., Miss Carrin Madden, Miss Beatrice Pick, Miss Frances Richer, Miss Fern Bean, Miss Olive Moore, Miss Pearl Henley, Miss Ell, Mrs. Henley, Miss Emma Thompson, Miss Jessie Mills, Miss Laura Abendhein, Miss Luella Huff, Miss Jessie Yeomans, Miss Margaret Hetherington, Miss Ore, Fredline Miss Eleanor Lilly, Miss Violet Barker, Miss Jda Gilbert, Miss Lillian Gray, Miss Helen Von Boston and the host and hostess.

Planned Birthday Surprise.

A pleasant birthday surprise party was given in honor of Miss Grace Anthony at her home in Broadmoor Tuesday evening. The evening was enjoyedly spent in music and games after which a dainty supper was served. Those present were the honor guest, Miss Anthony, Mr. and Mrs. James Morrow, Mr. and Mrs. J. C. Anthony, Mrs. Minnie Gray, Mrs. E. Bibb, Miss Hazel Babcock, Miss Mayme Gray, Miss Gladys Martin, Miss Judith Horsfall, Miss Louise Anderson, Miss Bernhardina Johnson, Miss Leon Arthur, Miss Mabel Starmore, Miss Wilma Southwick, Miss Florence Morrow, Miss Jessie Morrow, Miss Ethel Bibb, Miss Ruth Bibb, Miss Pearl Bibb, Mr. Harold Horsfall, Mr. Roy Wilkey, Mr. Leonard Marshall, Mr. Harry Johnson, Mr. Roy Gray, Mr. Paul Jeanne, Mr. Hobart Marshall, Mr. Lima Tesson, Mr. Clarence Mortenson, Mr. Robert Arthur, Mr. Walter Morrow, Mr. Arthur Gray and Mr. Robert Bibb.

The A. D. Embroidery Club.

Mrs. James T. Bussey, 25 North Spruce street, was hostess Thursday afternoon at her home for the A. D. Embroidery club. After an hour of needlework the hostess served a dainty luncheon. Covers were laid for 10. The next meeting of the club will be held at the home of Mrs. James Crosswell, 40 Boulder Heights, Thursday April 6.

Mrs. Loring Lennox Hostess

Mrs. Loring Lennox presided over a luncheon of beautiful appointments Wednesday when she entertained for her guests from Denver: Miss Mayme Gallon and Miss Margaret Carmen. Great clusters of Killarney roses were used on the table. Covers were laid for six. The luncheon was followed by a tea for a number of friends among whom were Miss Maxine Gallop, Miss Margaret Carmen, Mrs. John Lennox, Mrs. Paul Lennox, Mrs. Raymond Lowell, Mrs. E. Watson, Mrs. Sidney Walker, Mrs. E. W. Cox, Mrs. A. G. Sharp, Mrs. William O'Brien, Mrs. Howard Boak, Mrs. Charles Howbert, Mrs. W. V. Mullin, Mrs. Geo. ge

and others.

IT YOUR SEED
ALLOWANCE YET?
ASK CONGRESSMAN

lenger, Battleships and
Garden Seeds Three
Great Questions

By JONATHAN WINFIELD.
WASHINGTON, March 28.—Three
old battles, always over the same
topic, take place annually in the
House of Representatives. They con-
cern mileage, the free distribution of
seed and battleships.
The garden seed skirmish for the
year 1914 has taken place, and, as
yet, the members of congress re-
tained in the agricultural appropri-
ation bill the provision authorizing them
to continue to distribute free to their
constituents packages of seed fur-
nished by the department of agriculture.
Year after year hundreds of
bands of seed packets go through
mails bearing the frank of mem-
ber of congress. Year after year an
effort is made to strike this item from
the agricultural budget, but the legis-
lators from the rural districts bowl
all such amendments.

Debate Always Heated.
A debate over the seed distribution
issue is heated and frequently amus-
ing. The opponents of the authorization
say it is "petty graft" and that
it is distributed for vote-catching
purposes. Rural members hotly refute
such suggestions and paint glowing
ures of the joy that comes to the
farmer, his wife and his daughter
in the packages of government seed
which is sent in intensity to the fight over
seed is that centering in the
proposal to abolish the mileage
allowances of senators and representa-
tives. The mileage bill for Uncle
Sam's legislators now amounts to more
than \$50,000 each year.
In the early days of the republic
members received 20 cents per mile
to pay the expenses of the
trip to and from the nation's capi-
tal. In those days, the statesmen
travelled by stage coach and on horse-
back and the amount was not unre-
asonable. In these days of swift trains,
their parlor coaches and Pull-
mans, the mileage allowance remains
the same and all efforts to cut it
down to the actual expense incurred
by the traveling member have been
vain. Some members, living at
great distances, receive as much as
\$12,000 mileage.

Annual Battleship Fight.
The battleship fight in the house
is an annual affair. There is no
"battleship" group which seeks
strike from the naval bill any
authorization for a navy increase.
There are other factions known as
"battleship," "two battleship" and
"no battleship" groups. Repre-
sentative Hobson of Alabama stands
politically alone in his demand for
a new battleship. He is the only
one who has voted for the bill.
The naval bill carries
authorization for two new ships. Last
year the Democratic economists held
out the authorization to one. The
primary fights, however, are ex-
pected when the legislative bill con-
cerning the mileage appropriation and
naval bill, providing for battleships,
are considered.
Sample of the debate on the gar-
den seed distribution privilege was
recently with the passage of an
agricultural appropriation bill. Mr.
Franklin, a Texas Democrat, wanted
strike from the bill the clause per-
mitting members of congress to send
seeds under their franks. He
said that the department of agricul-
ture might continue its work of
propagating and distributing
seeds and plants, but he said
that the time-honored practice
of distributing garden and flower seed
in the congressional frank ought
to be abolished.

Views Differ.
Representatives Page of North Caro-
lina declared that "for five cam-
paigns in my district I have consistently
voted against congressional dis-
tribution and made it an issue in the
legislature. I never yet men-
tioned it to an audience of agricultur-
ists that they did not agree with
me." There is not a newspaper in my
district that is not opposed to this

**I'll Grow Over
"GETS-IT" for Corns!**

I'll Startle You How "GETS-IT"

Gets Corns Every Time
ne, two, three!" That's about as
as it takes you to apply "GETS-
IT," the new-plan, simplest, surest
cure the world has ever seen! Corn

**Is No Place For a Corn, II, C. Are
you, Sir II, I'm Up 'GETS-IT'**
ng is all over. Corns, corn pains
calluses are absolutely gone for
the minute you apply "GETS-IT."
at the bother of useless plasters,
silvers that spread and make
sores and raw, little doughnut
callings that press on corns, forget
the people want seed."

The Sumner amendment to strike
from the bill the seed distribution
authorization was defeated 96 to 26
and the house is expected to stand
by its guns when some economists
seek to strike out the mileage allow-
ance.

Regular 65¢ and 75¢ butter dishes and sugar bowls, at 30¢

ESPERANTO**FOR WORLD PEACE**

The March number of Amerika

Esperantista contains the following account, over the signature of Dr. James L. Tryon, secretary of the Massachusetts Peace Society, of a recent conference held with him in Boston by certain representatives of the Esperanto society of that city.

The Relation of Esperanto to International Peace is a topic discussed. The Esperantists made the following statement as to the progress of this language and its value as an adjunct to the movement for world peace.

Among the actual accomplishments of Esperanto, as a neutral medium of communication between the nations and a means of drawing widely differing people into closer sympathy and understanding, is the significant fact that when Oxford university recently

desired to communicate with other institutions of learning throughout the world, it sent out a trilingual message.

Classics from many lands have been rendered into Esperanto, thus becoming available, often for the first time, to students of the language. For

25 years a world-wide correspondence has been carried on in this tongue by people totally ignorant of each other's native speech.

Within two years three well-known

Esperantists—Alfred Fried of Austria

Henry Lafontaine of Belgium, and

Charles Rinet of France—have been

awarded Nobel Prizes, the two first

named receiving the Peace Prize.

In view of these facts it was con-

sidered that the growing peace move-

ment fairly involves unity of languages

so far as such unity is needful for in-

ternational communication. Hitherto

the peace movement has made pro-

gress by the force of its appeal to the

intellect. May we not raise the ques-

tion whether the movement has not

somewhat neglected those appeals to

the heart that are the soul of brother-

hood?—appeals which the Esperanto

movement makes and fosters.

In all international gatherings and

conferences the necessity of transla-

tion into the leading languages of the

world is a cumbersome method of ex-

changing ideas, not to mention the

fact that, owing to peculiarities of na-

tional idiom, translation rarely if ever

translates. Should not all friends of

peace and unity be favorably disposed

to Esperanto, which enables all na-

tionalities to express themselves with

precision directly and without the need

of translation?

The large literature in Esperanto, its

success in curing the victims of the "Drink

Woo" into sober and useful citizens, and

its strong confidence in the creative

Fears Colorado May yet Become 'Renoized'

Woman Senator Would Alter Divorce Law

Colorado Springs and Denver in particular, and Colorado in general, are quite likely to become 'Renoized,' and that within a very short time, unless radical changes are made in the divorce code of this state, in the opinion of Helen Ring Robinson of Denver, the only woman senator in the United States. And Senator Robinson is going to undertake to change, or at least assist in changing, the code so as to remedy conditions—"Colorado's divorce evil," as she calls it.

Mrs. Robinson is in Colorado Springs for a few days, the guest of Mrs. W. H. Rose. Yesterday afternoon she addressed the Woman's club on "Adventures in Life," and tonight she will speak at the Unitarian church. Her address will be largely a discussion of legislation as it applies and appeals to the needs and minds of the people of today. Her position is that some of the best legislation cannot be passed now because the people are not ready for it.

The divorce question, or "evil," as she insists upon terming it, is the one piece of legislation that is occupying the attention of Senator Robinson at present. For years she has realized the crying needs of better and more stringent divorce laws, but she has never been very active in the work of

scooring them. During her recent trip through the east she devoted not a little time to studying conditions, the outgrowth of divorce, and since her return she has been studying the Colorado laws with a view of reframing them.

Must Repeal Laws

"But I'm afraid they can't be repealed," she said smilingly, at the beginning of an interview yesterday. "They must be repealed altogether and a complete new code adopted."

Senator Robinson is quite enthusiastic over the work which she is taking up. She admits that she has not gone very far with it, and as yet doesn't know exactly what she does want, but at the same time she speaks in a general way of the needs of a new code with "teeth in it" in such a determined manner that one cannot help but think that within a few years seekers of easy divorces will be advised to go elsewhere.

The court of domestic relations, in my opinion, is the feature around which the new divorce code should be constructed," said Mrs. Robinson. "While in the east, I studied the operations of domestic relations courts, and the more I learned of them, the better I liked the idea. The divorce question is a matter of fact. I don't think the state has so very much to do about the divorce of two people who have no children. Oftentimes their love, or supposed love, has grown cold; they are miserable together and would be far happier and of vastly more good if freed. Such people, I believe, should be granted divorces. But if there are children, the state has a very vital interest in the case. Warden Tynan, just a short time ago, said that 50 per cent of the men and women in the penitentiary were children of divorced parents, who went wrong as a direct result of the divorce. Only upon proof of most serious charges should parents be granted a divorce, in my opinion."

Senator Robinson leaned forward and talked earnestly and seriously about this question, which is of such great moment to her. Speaking on a subject difficult to express, she chose her words carefully, and by use of many illustrations, made her position perfectly clear. Her deep concern, her conviction that it is her duty to fully carry out this self-imposed task of assisting in fighting the divorce evil, are as much to be admired as are her opinions on the subject. She is a woman who has found a good purpose and who is sincerely fighting to carry it out.

The evils of the present code and the remedies to be considered are so many that Senator Robinson hesitates to speak to any great extent on them. She doesn't want to talk until she has thoroughly investigated every phase of the question and has outlined her plan for doing away with the evil. Speaking of Senator W. C. Robinson's divorce bill, which was killed at the last session of the legislature, Mrs. Robinson said:

Would Not Restrict Marriage.

"While I voted for the bill, I am not sure that it contained everything desirable. I believe that one or two sections could have been strengthened. Then I am not firmly convinced that his plan of silencing a year to elapse between the trial and the signing of the decree is just what is needed. However, I wouldn't care to enter into a deep discussion of that at present." In framing your ideal divorce code, would you remedy the present marriage laws?" was asked.

"Evidently," questioned Senator Robinson, with a smile.

"Oh, no. A time limit between application for and granting of a marriage license."

If the limit were not too long, that would be a very good idea. However, we don't want to put very many restrictions upon marriage or we will find the percentage of illegitimate relations going up with jumps and bounds. Several days between the time of application for and the grant-

ing of the license."

LITTLE ROCK, Ark.—Practically complete returns from every county in Arkansas in Wednesday's primary, today indicated the renomination of United States Senator James P. Clarke over William F. Kirby, Justice of the state supreme court.

MISS ROBIN HOOD

CAST IN BE KOVEN OPERA

Revival of "Robin Hood" Celebrated

De Koven Opera Set as Old

Original Years Ago

By E. W. W.

Again a Colorado Springs audience has surrendered to Robin Hood and his band of rogues and perfectly lawless outlaws. And despite its reputation for fighting, not the slightest resistance was made. The company which presented "Robin Hood" at the Opera house last night came well equipped with singers and all the necessities for making a plowing opera. Add to this a hard and earnest effort on the part of every member, and the result is obvious.

The De Koven opera is called light opera. And so it is, for the most part. But several of the choric numbers might well be given the more dignified name of grand opera. Comments on the opera itself, however, are superficial; few who know, not of it.

The cast, the press agents say, was selected personally by the composer. And nothing in the production denies it. The Maid Marian was no other than Bebbie Abbott, formerly of the Metropolitan, New York, and the Friar Tuck was the no-less-popular George B. Frothingham, who claims the distinction of having presented the jolly and frivolous old monk with the Bon Tonians years ago. But, no matter how many years have passed over him—they say it is more than 20—he still remains the clever, merry friar of

the plant.

Although surrounded by a cast every member of which scored a decided hit, Miss Abbott stood out the captivating star that she is. She has a beautiful clear soprano voice and sings with style and understanding. Although of a lyric quality, there is body, and one cannot but think that she is capable of far more exacting work. Slim, pretty and possessed of a sparkling personality, she makes an ideal Maid Marian. Her work always was received with the greatest of applause.

Henriette Wakefield took the Alain-a-Dale and was an attractive figure in the role. She has a mellow contralto voice, which she handled very well. Her singing of "O Promise Me" and "The Legend of the Chimes" was one of the real enjoyments of the evening. The Anabel was taken by Helena Morris, who also possesses a lyric soprano voice. She sings with great expression, and her one solo, "When a Maiden Weds," was much admired. By the way, "When a Maid in Weds" is a new song in "Robin Hood."

Ralph Braford fits into the title role as well as does Miss Abbott in that of Maid Marian. He has a pleasant tenor, which stands out especially well in the ensemble numbers.

Jerome Daley Prime Favorite.

With a deep basso, which he could make audible in any part of the house without giving to it the rasping tone, Jerome Daley as Will Scarlet was one of the best-liked of the cast. His "Armorer's Song" and "The Nine Tailors" were excellent, especially the latter.

Phil Branson depicted the exotic sheriff of Nottingham with wonderful ease and in a most pleasing manner. Apparently he makes no effort whatever in presenting the extraordinary character. Dame Durden was well taken by Tillie Salinger.

JAMES STEVENS' Little John could hardly have been improved. Stevens has a baritone, rather high, which was one of the most pleasing voices in the entire company. His "Brown October Ale" was one of the favorites. Sid Graham managed to get much comedy out of the Guy of Balsbourn. He made a grotesque country lout.

The costumes were exceptionally good, and were not confined to the principals alone. The orchestra, conducted by Joseph Sautin, met requirements, but that was about all. Unfortunately the company carries only a few musicians and, naturally, the augmented organization cannot do any extraordinary work.

WILLESTAD, Curacao.—General Francisco Linares Alcántara, former Venezuelan minister of the interior and Dr. Benito Rojas, another Venezuelan fugitive, sailed from here today for New York.

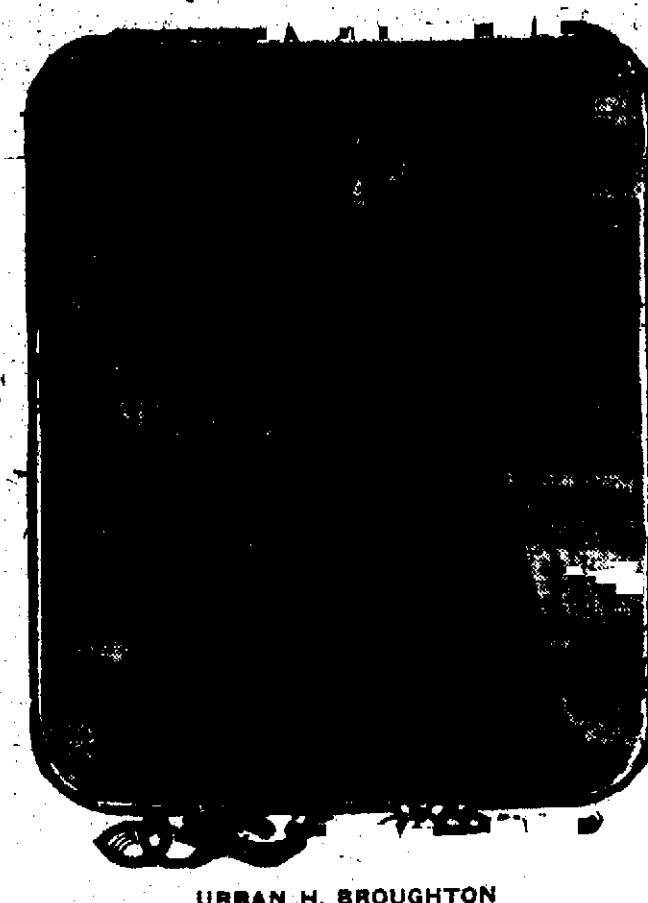

ROBERT LANSING

The eminent authority on international law, who has been nominated by President Wilson to succeed John Bassett Moore as counselor to the State department.

He is a resident of Watertown, N. Y., where he was born, October 17, 1864. Mr. Lansing was graduated from Amherst in 1884 with the A. B. degree.

PIERRE CHONÉAU, JR.

The 16-year-old, great-grandson of Pierre Lacoste, founder of the Lacoste brand of knitwear, and from Paris, France, has been chosen to impersonate Lacoste in the St. Louis pageant and masque, in which 7,500 performers will participate. The pageant will be staged in a wonderful out-of-doors theater, the last four days of May.

URBAN H. BROUGHTON

LONDON, March 28.—With William Waldorf Astor already a member of the English parliament, and Urban H. Broughton, formerly of New York, making a vigorous campaign for a parliamentary seat from York, the Americanization of English politics is progressing. Mr. Broughton, who is a son-in-law of the late Henry K. Rogers, and a high official in the Amalgamated Copper company, is advocating tariff reforms, basing his views on his 25 years of business experience in the United States. He is a Unionist candidate. His wife is aiding him in his campaign.

BATHING AN UNKNOWN PROCESS TO MEXICANS

U. S. Army Surgeon Reports on Attending Wounded Refugees at Presidio, Tex.

WASHINGTON, March 28.—Bayonets and sabers played no part in the battle of Ojinaga, Mexico, according to report made of the war department today by Capt. Louis C. Duncan, army medical corps, U. S. A., who was one of the surgeons attending the wounded cared for at the hospital camp at Presidio, Tex. Although the Federal infantry carried bayonets and the cavalry sabers, Captain Duncan saw nothing but gunshot wounds on his patients. He concluded that the "sabers" were a useless weapon.

Wounded Mexicans bore their injuries with incredible stoicism, the report says, and expected no relief from their agonies. No arrangements for care of the wounded that were worth mention had been made by either army, so far as the American doctors could learn. The men were not provided even with first aid packages.

Summarizing his experience with abdominal wounds, Captain Duncan says bullet from modern high-power rifles frequently pass through the abdomen without inflicting serious damage if fired at long range. Such wounds are not as fatal as had been believed, he states.

Bathing is an unknown process among the Mexican soldiers, partially because of lack of water, Captain Duncan asserts, adding:

"There were many men who had not much as washed their faces and hands for months, if ever."

He denounces the Mexican federal medical officers for refusal to aid in caring for federal wounded at the hospital.

COLUMBIA, S. C.—A lone

bandit looted the express safe of a Seaboard Air Line train from Tampa to New York, here tonight, taking one package said to be of small value and jumping from the train as it slowed down for a crossing. The robber made his escape. The mail and passenger coaches were not disturbed.

The robbery occurred just as the train was pulling out of Columbia and the robber forced the express messenger to open the strong box by holding a pistol to his head.

The opening address for the defense will be made Monday.

DEATH PENALTY ASKED FOR JOHN B. KOETTERS

CHICAGO, March 28.—The death penalty for John B. Koetters was demanded by Stephen Malato, assistant state's attorney, today. Malato asserted it had been proved that Koetters lured Mrs. Emma Kraft of Cincinnati here; that he killed her, and that there could be no extenuation of the crime. The case is expected to go to the jury Tuesday.

GORE URGES PROBE OF OKLAHOMA OIL REDUCTION

WASHINGTON, March 28.—On motion of Senator Gore, the senate today passed a resolution requesting the secretary of commerce to investigate the recent reduction in the price of crude oil by the Magnolia Pipe Line company in the Ardmore oil field in Oklahoma, with a view of ascertaining the cause of the reduction, and whether discriminations are practiced.

PIERRE CHONÉAU, JR.

The 16-year-old, great-grandson of Pierre Lacoste, founder of the Lacoste brand of knitwear, and from Paris, France, has been chosen to impersonate Lacoste in the St. Louis pageant and masque, in which 7,500 performers will participate. The pageant will be staged in a wonderful out-of-doors theater, the last four days of May.

ROBERT LANSING

The eminent authority on international law, who has been nominated by President Wilson to succeed John Bassett Moore as counselor to the State department.

He is a resident of Watertown, N. Y., where he was born, October 17, 1864. Mr. Lansing was graduated from Amherst in 1884 with the A. B. degree.

SOAP ON HAIR CAUSES DANDRUFF, SCALP GETS DRY, HAIR FALLS OUT

**Girls! Get a 25 cent bottle
and try a "Danderine
Hair Cleanse!"**

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed; your hair will not only be clean, but it will be wavy, fluffy and abundant.

and possess an incomparable softness and lustre.

Besides cleaning and beautifying the hair, the application of Danderine dissolves every particle of dandruff, stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshines are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

Adv

AN EXHIBITION OF PAQUIN GOWNS ON FRENCH MANNEQUINS

Tailored Coats Featured With Directoire Collars Modified by Japanese Effects. Skirts Have Undulating Footline

NEW YORK, March 28.—The French fashion invasion of America began a year ago, when Worth made us a visit, apparently with the object of finding out the actual requirements of the American woman so as to be more in touch with her practical needs. His visit was marked by a conservative attitude and lack of display typical of the great house of Worth.

The second great couturier to follow M. Worth's example was Paul Poiret, who came last fall, making a more sensational appeal to the public with moving pictures showing his house in Paris and his mannequins wearing his creations. To these conferences invitations were given, and there was no attempt at a theatrical display; rather, it was a *voyage of discovery* in search of the American woman upon her native heath.

The interest aroused by M. Poiret was further accentuated and focused on Madame Poiret, who wore gowns with grace and charm, typical of M. Poiret's creative genius. In almost every instance, his gowns showed a loose-waisted effect that gave ample play to every muscle of the body. The

coats showed the influence of the empire and directoire collar modified by Japanese tendencies. The sleeves were usually set in loose, so they gave the impression of kimono sleeves. The fronts were short, coming to a point over the bust, where they were fastened by three closely-spaced bone buttons. The backs, cut in one piece, had two fairly deep pleats extending from the shoulder to the waist, where the collar would have joined the shoulder seam, if there had been one. At the waist either several buttons or the band extended from the front held these pleats firmly in place while below this band, which did not extend across the back at all, the double box-pleats fell freely to the knees in an extremely graceful manner.

On these coats the collars were large and rolling, giving the effect of a blown-up sailor collar, and extended from shoulder to shoulder. Each collar was plain, but several, placed one on top of the other, gave a complicated appearance.

My second illustration shows a Roman striped and plain serge which together make a very striking costume. This is a favored combination of Poiret's, and for that reason very popular with many women. It has an added charm in suggesting how to remodel a couple of last season's frocks into an effective up-to-date dress. The awning-striped skirts also promise great popularity.

ASKED THEIR PASTOR TO MARRY

Converts in India Also Had a Wife Selected for Him

From the Youth's Companion
Almost every one who has friends in mission work in India knows that one very important function of the missionary is to play the part of matchmaker to his flock. But few, if any, have heard of the conditions being reversed, and the flock turning matchmaker for their missionaries. That does occur, however, as the letter written by a missionary who lives at Tuticorin, South India, tells.

On New Year's day 1911 as I was seated in my little mud cottage at Tuticorin, a number of people entered the veranda and ceremoniously came into my room bearing trays of flowers, fruits, raisins and sugar, which they placed at my feet like supplicants who desire to gain the hearing of a petition. After due ceremonial etiquette had been observed, and I had indicated my willingness to hear their petition, Ghana Devamani, a prominent lawyer in Tuticorin, began reading in Tamil an address to which the others gave strict attention. It ran like this:

"Reverend Sir—You have now for nearly two years bestowed great care and labor upon us, ministering to our spiritual welfare and striving for the health of our souls to such an extent that you have greatly impaired your own physical health, and we feel that you need some one to care for you, since you do not care for yourself. We fear lest your soul in our behalf may deprive us at once of your life and services. Therefore, with profound humility and sincere respect, we venture to request you to marry a good woman, who will both care for you and help us."

This was naturally a confusing thing to happen, but I was bound to respond to such an eloquent appeal and when the applause died away I rose and answered with considerable effort:

"Your affectionate regard for my welfare is so overwhelming that I have no words in which to express my appreciation, and sat down, quite faint from the exertion. But the novelty of the situation overcame my fatigue and turning to one of the elders, I asked if they had any particular person in mind, one who would be willing to become my helpmeet, and he equal to all the responsibilities they had outlined. Immediately Miss W.'s name was mentioned. But said I, 'I don't believe she would have me.' This seemed to me like matchmaking with a vengeance. What a high-handed act, to be sure. To order their pastor to marry and then to choose the girl besides! But the world was still to come. We have already seen her and told her she must have you," said Brother Basappa.

"So it was settled. I may add that my wife and I have reason to appreciate highly of the Indian method of match-making, but it should be combined with the Western method of courting, as in our case, to get the best results."

The majority of the thin gowns show a white foundation stamped at intervals with a Cubist design and the edges bound with a bias fold, not more than half an inch deep matching in color the tones of the design.

The waists of these sheer gowns show the same tendency to be high in front and low in the back as shown in the majority of Paquin models. Usually they are treated behind in some fancy manner either a bow with eyelets and wide loops, or some sort of draping that gives a not too pronounced waist effect. The front often has two or three materials placed one on top of the other and each partly showing. A sheer lace, or net, gives the effect of an inner voile touching the skin, and another lace or layer of chiffon separates the material of the gown from this inner fabric.

The leaping little gown which I have used for my first illustration is a

Roman and Awning-Striped Skirts
With Tunics in Solid Colors
in Great Vogue

wonderful fabric and combination of colors proved the originality for which Poiret alone is master. His gowns are often impractical, but full of inspiration and have done much towards the awakening of originality and creative quality in the great French houses.

Following the example of these two leaders of fashions, the House of Paquin has now brought to this country an exhibit of gowns on mannequins for which one must pay admission!

As each couturier has a strong tendency toward some individual style, so in the Paquin gowns certain tendencies are strongly marked, notably the lack of the bustle effect and the long straight lines of the back.

The collars of the coats and blouses fall well away from the neck and stand out with a continuation of the rolled effect of the Japanese collar often carried out in more than one collar.

Such a striped silk collar over a large plain colored tunic with an inside lining collar of sheer white organza.

The line of the bottom of the skirt is rarely straight among these Paquin models. Often it is scalloped at times, uneven and usually with the fullness inserted on either side from the knee downward with rounded slits from under which an underfrounce of another material is visible.

The majority of the thin gowns show a white foundation stamped at intervals with a Cubist design and the edges bound with a bias fold, not more than half an inch deep matching in color the tones of the design.

Hibbard & Company

We Are Introducing This Week America's Newest Corset "The Franco"

Among wearers of high-class corsets The Francos are destined to become great favorites. Made and designed by one of the foremost American designers. You must see them and let us fit you with one. Superb elegance of style and finish and exceptional fitting features every model.

Front Lace Model at \$6 for average and well-developed figures. Made of dainty figured mercerized madras, trimmed with Irish lace. Very low bust, with long hips and back; very lightly boned and entirely free hips; elastic abdominal gores and back strap. Six hose supporters.

Front Lace Model at \$5 an average figure style, modeled of fancy striped coutil, with a very low bust and long free hips, embroidery trimming.

At \$4 another Front Lace Model, made of soft mercerized batiste, free from side stays, very low bust with long hips and back, trimmed with pretty embroidery.

The \$4 Back Lace Model, a soft, flexible corset for slender figures, made of a dainty flesh color batiste, figured, trimmed with silk braid. Free sides and lightly boned throughout.

Another \$4 model is for average and well developed figures, made of plain velvet chamois cloth, trimmed with embroidery top, six hose supporters.

At \$3.50 an average and slender figure model, made of mercerized figured coutil, in a popular low bust style, lightly boned throughout.

Make it a special point to see the new "Francos."

Ribbons for Sashes and Girdles

Plaid Ribbons are the correct style for hair bows. Here is a good one in heavy quality and beautiful color combinations at 39c a yard.

Others not so heavy at 29c a yard.

Six and eight-inch Satin Ribbons for sashes and girdles, colors are: Pink, blue, black, pheasant tan, mais, emerald green, copenhagen, orient, jacque, old rose, vandy, 50c to 90c.

GIRDLE FOUNDATIONS for sashes, etc., percale or crinoline, boned with featherbone, new, correct shapes, that make it easy to get the proper effects for the new styles.

Your affectionate regard for my welfare is so overwhelming that I have no words in which to express my appreciation, and sat down, quite faint from the exertion. But the novelty of the situation overcame my fatigue and turning to one of the elders, I asked if they had any particular person in mind, one who would be willing to become my helpmeet, and he equal to all the responsibilities they had outlined. Immediately Miss W.'s name was mentioned. But said I, 'I don't believe she would have me.'

SOME FURBEARERS OF SOUTH AMERICA

Next to the pelt of the silver fox of Labrador and ermine, the snowy fox for whom civilization has made it the badge of royalty and riches, the chinchilla of South America carries on its back about the most expensive material used in fashionable feminine attire.

High up on the eastern slopes of the Andes in sections of Peru, Bolivia and Chile the chinchilla has its habitat living at an elevation of from 8,000

A Complete Transformation

"A Turning of a New Leaf"

The goods with a history, forgotten for the time, and "The Follies of Spring" occupying their places and our every attention.

Our Mr. Thorsen has returned from his purchasing trip and a constant stream of shipments are pouring in on us daily.

His "Late on Purpose Trip," as usual, terminated in most desirous and beneficial results, and we shall be in the same position to offer you the latest creations at our usual early bargain prices.

We are exclusively tiny goods and garments, and pay our attention strictly to these lines, and we know by extending your shopping explorations to our store you are sure to encounter some very pleasant surprises.

Monday, Tuesday

The two last days of March we wish to make some remarkable price concessions on Spring Goods "To be honest with you," we make them in competition with the usual "Month-End" — End of Month or whatever the name may be — Sales.

A name has no tailor to us nor has a price. It's getting more opportunities to prove this fact, which is the only worry to us.

"We do not want to be undersold, you know."

If there are goods needed and not on our Special bargain list, let us figure with you.

"It's a Dividend with every Purchase Here."

Garments

The transformation in this department was quickly made and the result is a very satisfactory one.

The showing at this time is marked by the absence of some of the early freaks and with the presence of such styles only as have withstood the early season's scrutiny and proved the most popular of the many early prospects.

Colors are predominating this spring and we show them in all the new shades.

Suit Special

A Special offering in our New Suits of the better grades, those that we purchased and priced \$25.00 and \$27.50 there are about 20 of them. Our price will be, on Monday and Tuesday,

\$19.98

COATS

They are so different from last season's that the old one will hardly do.

The most popular are the short cutaways and comes in all the new materials and colors.

As usual, we have priced them Special, and you will find it comparatively easy to make a selection here at a moderate expense. Some very Special Values.

\$7.00, \$8.00, \$12.98, \$14.98 and \$19.98

Regular values from \$10.00 to \$27.50.

5% OFF GARMENTS.

"Petite Pantaloons," the latest craze; also "Bloomers," now shown here.

**PLOKKING BOARD
OF THE NAVY IS
SUPREME BODY**

DANIELS UNPOPULAR
WITH "HIS MEN"

Naval Officers Must See
More Sea Service, Nev.
Ruler Says

By SIDNEY SPEYER.
WASHINGTON, March 28.—The plucking board of the navy is a body of five rear admirals designed to create vacancies when death and disease do not operate rapidly enough," said Rear Admiral Wainwright, during a recent hearing before a Senate committee when the activities of this board came under fire. This is a concise definition and is peculiarly accurate.

The higher the rank in the navy, the fewer are the positions promotion with increase of pay is the chief incentive in time of peace to strict performance of duty. If the upper grades are cleared the officers below must wait indefinitely for promotion. Consequently the upper grades must be demoted either by death or disease or some artificial means.

Work of Plucking Board.
By law it is provided that 40 vacancies must be created above the rank of junior lieutenant in the navy each year. What death and disease fail to do, it is next try for the plucking board to do. If officers do not die enough of them must be placed on the retired list to provide the proper number of vacancies in the active list.

The plucking board is given absolute power of retirement. Its decisions are not subject to review and an officer once retired can only be placed on the active list by a special act of congress. A score of more bills for this purpose are now before congress. The navy department has invariably reported adversely on such bills, recognizing the general necessity for the operations of the board and desiring to protect it against attack.

Sometimes "Get" Officers.
Men in the service declare that as a general thing the decisions of the plucking board are upheld in "shop talk," although occasionally the board "gets" an officer whom his fellow officers believe should instead, for the good of the service, be promoted and retained on the active list.

The plucking board has very broad powers; its right of "selecting out," as the operation is officially termed, being bounded only by the judgment of the board as to what will operate for the "good of the service."

As a result of this latitude in which the board may find its reasons for retiring officers, naval officers assert that when an officer is retired it does not mean that he is incompetent, but merely that he is less efficient than some other officer. Included in the question of efficiency is age and other circumstances over which the officers who may be the victims of the board have no control.

Secretary of the Navy Daniels decided within three weeks after he assumed office that he would try to retain the navy by compelling officers to take active sea duty instead of the easier shore duty assignments.

Get More Sea Service.

As a result, it is now practically a departmental rule that officers shall have a full season of sea duty, and this will operate, with respect to the plucking board, in a way that will give that board one more reason than it had for retiring officers. Under the old regime, there was no fixed amount of sea duty to be performed. Under the new regulations no fixed period is stated, but it is generally understood that the more time an officer spends at sea the better will his record compare with what the navy department is seeking. Consequently officers who, under the old practice, saw little sea duty will not make a special good showing under the new rules, and the plucking board may take its delinquency into consideration in nominating an officer to walk the plank.

Secretary Daniels has not "made it" with many officers by exerting pressure toward sea duty. It is asserted that this is not a criterion of efficiency, and the example most frequently alluded to is Admiral George Dewey, who, before being assigned to eastern waters, where he fought and in an extraordinary fashion the bat-

**URIC ACID
SOLVENT
5 Cents Bottle (32 Doses)
FREE**

Just because you start the day worn and tired, stiff legs and arms and ankles, an aching head, burning and aching pains in the back—worn out before the day begins, do not think you have to stay in that condition.

Be strong, well and vigorous, with more pain from stiff joints, sore muscles, rheumatic suffering, aching back or kidney disease, and for any form of bladder trouble or skin rash, its action is really wonderful.

These sufferers who are in and out of bed half a dozen times a night appreciate the rest, comfort and ease this treatment gives.

To prove the Williams' treatment cures kidney and bladder diseases, urination and all uric acid troubles, matter how chronic or stubborn, you have never used the Williams' salve—will give one 5c bottle (20 doses) free if you will cut out this ad and send it with your name and address, with 10c to help pay distribution expenses, to The Dr. D. A. Williams Company, Dept. 387, P. O. Box, at Hampton, Conn. Send at once! You will receive by parcel post a regular 5c bottle, without charge and hour incurring any obligations. One only to an address. Ad

GOLFERS SWEAR BY AND AT GAME SCOTCH SPORT LANGUAGE LESSON

By EARL POTTER.

Golf is a game, an exercise and a language lesson. It is played with a little ball, a cow pasture, an assortment of sticks and an ever-increasing vocabulary. A single game of golf will increase one's collection of vituperative adjectives 100 per cent.

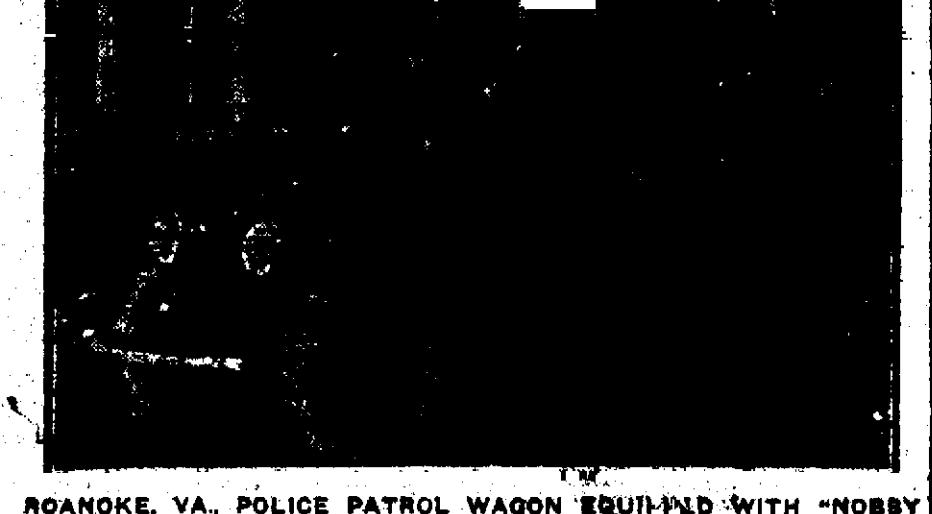

Golf is attempted by active as well as tired business men, college professors, bank presidents, tango teachers and maniacs. The game is played on links, a links is made up of a series of holes connected by a string of swear words. The primary object of the game is to hit, beat, chase and talk the ball into a series of holes. But the ball, like the sock with the six months' guarantee, refuses to be holed. The start toward each hole is made from the tee. Teeing stations are not primarily drinking stations—not primarily.

Driving Off the Tee.

Driving off from the tee is one of the most striking features of the game. In driving off one hits the air, the turf, himself, sometimes the bottle, but the ball, only very seldom. The ball, once hit, must be found, and it is here in the game that the true exhibition enters. "Hunting for a golf ball is almost as exciting as eating hash or raisin pie—one never knows what will turn up next. Connected with the game is a small imp known as a caddy. It is he who is supposed to keep track of the ball. He turns out, however, to be merely a person to whom you pay two bits to come along and tell you how bum you play.

In golf the idea is not so much to keep your eye on the ball as it is to and his opponent 100%.

Roanoke, Va., Police Patrol Wagon Equipped With 'Nobby Tread' Tires

ROANOKE, VA., POLICE PATROL WAGON EQUIPPED WITH "NOBBY TREAD" TIRES

The serviceability of United States "Nobby Tread" tires for heavy duty work is emphasized by the increasing number of government and municipal motor vehicles using them.

For police department work especially, motor cars and motorcycles are rapidly displacing horse-drawn conveyances and saddle horses.

The "Nobby Tread" antikid tire has established itself as the most durable heavy service tire. Its freedom from punctures, its durability, and its antikid feature command it for work on cars which know neither holidays nor speed laws.

Since the makers of "Nobby Treads" have adopted for it a 5,000-mile basis of adjustment, public purchasing agents are more than ever inclined to buy "Nobby Treads" only.

STANLEY KETCHEL'S BACKER MUST PAY REWARD OFFER

Farmers Force Payment of \$5,000 With
Interest For Capturing Slayer of
Prizefighter

SPRINGFIELD, Mo., March 28.—R. P. Dickerson, who was the backer of Stanley Ketchel, once middleweight champion, must pay three farmers \$5,000 with interest for capturing Walter Dipley, the slayer of Ketchel, according to decision of the court of appeals here today.

When the captors put in a claim for the reward, Dickerson refused to pay it, saying he had offered a reward only in the event that Dipley was brought in dead. Dipley is now serving life term in the state penitentiary.

To Add Four Holes to Course at Club

Steps have been taken at the Colorado Springs Golf club toward the completion of the course by the building of four holes. Work on the new holes probably will be begun soon and it is likely that they will be in commission with temporary greens some time this summer. The club has grown, both in resident members and in popularity with easterners and southerners who spend their summers here, until the completion of the course is necessary to avoid congestion.

Under the direction of Chairman E. M. E. Taylor of the grounds and sports committee the work of putting the course into condition for the summer is well under way. The seventh tee has been moved nearer the west fence and bunkers and traps guarding the seventh green are nearing completion. Within the next few years the course should be one of the finest in the country.

BUCK O'BRIEN NOW BELONGS TO M'GILL

HOT SPRINGS, Ark., March 28.—Buck O'Brien was yesterday purchased outright from the Oakland, Calif., club by President McGill of the Indianapolis team. The price paid for this pitcher was not stated. O'Brien pitched two innings against the Pittsburgh Pirates yesterday afternoon and was touched up for five singles. He also had one error.

President McGill stated that Outfielder Allen, secured from the Washington club, was bought outright and not obtained through any deal.

McGill has gone to St. Louis, where he will look the two teams of that city over, and, if offered any of the players he may like, in all likelihood a purchase or trade of some kind would be made.

Referee Says That Wolgast Had Draw

CHICAGO, March 28.—Harry Stout, the man who refereed the Wolgast-Ritchie bout at Milwaukee, declares that the bout was a good draw. Billy Birch, writing for the Chicago Record-Herald, also thought honors were even. Stout nearly gave Tom Jones, the talkative manager of Wolgast, a pollywog after the bout at Milwaukee. Tom was bellowing around the press box that Ad had been fouled and that all the high-class doctors of Milwaukee and Chicago were working over him. Ad might last through the night, but talkative Tom had his doubts. Then he ran across Stout and asked him why he did not allow the foul when Wolgast was knocked down. Scott said he did not hear Wolgast nor Jones claim it. Had he heard the claim he would have stopped the bout and ordered an examination. That comeback nearly floored Tom, but as soon as he got his breath he called Stout a fighting name and invited him outside for a scrap under sidewalk rules. Stout declined. According to scribes at the ringside, if Stout did not hear the claim made for a foul he was the only man in the arena who did not.

Pirates Show Contracts in Suit for Injunction

HOT SPRINGS, Ark., March 28.—Contracts between the Pittsburgh National League and its players will be exhibited in court here Thursday as a result of a decision today by Chancellor J. P. Henderson in injunction proceedings of the Pittsburgh club against S. H. Campitz and other agents of the Federal league.

It was agreed that the salary clause be subject to the scrutiny of the court alone. The court granted the Pittsburgh club until Thursday to produce the contracts.

WASHINGTON 15, HILLSIDE 7

The Grammar School league goes on merrily, and the interest in the national sport among the boys is increasing. Yesterday the second Washington team won from the Hillside nine, score 15 to 7. Hard hitting and many errors featured the play. The score:

CAMBRIDGE OARS MEN WIN FROM OXFORD

Platform Collapses, Injuring
Fourteen People; Victory
by Four Lengths

LONDON, March 28.—The Cambridge university crew today won easily from Oxford in the annual eight-oared race from Putney to Mortlake on the Thames. The distance, four miles, was covered in the fast time of 29 minutes, 23 seconds. Cambridge crossed the line four and a half lengths in the lead.

A platform on which 150 spectators were standing collapsed during the race and all were thrown into the hold of a barge. Fourteen persons were badly injured.

The Cambridge crew had been the favorite throughout the training season and justified the predictions that it would win by making the race a procession from start to finish.

Cambridge won the toss for position and chose the Surrey side of the river, thus obtaining the advantage of shelter from a light wind.

The oars of the Oxford crew were the first to grip the water, but the longer stroke of the light blues immediately gave them the lead. After this there was no doubt as to the result.

When the crews shot through Hammersmith bridge, the half-way mark, Cambridge had a lead of two lengths. This was maintained until the boat approached Barnes bridge, where the leaders sprinted and took another length.

A gallant effort was then made by the dark blues and the gap between the boats was momentarily lessened.

E. Tower, the Cambridge stroke, made a final call on his men as they approached the finish, and Cambridge still further widened the gap between the shells. The weather was ideal.

TERRORS LOSE PRACTICE GAME TO C. S. L. H. & P. CO.

In a practice game staged yesterday afternoon in Monument Valley park the Terrors were defeated by the Colorado Springs Light, Heat and Power company team in a loose game lasting seven innings. Hastings, who pitched for the "Juice" men, was too fast for the Terror hitters. No exceptional form was disclosed by the Terrors.

C. G. H. S. WINS FIRST GAME

In the Pike Peak School Indoor Baseball League, the Colorado City City High school team last night defeated the Dear and Bluff school team by the score of 21 to 8. In the chamber of commerce, with every mail

Fans from Salida, Colorado Springs, La Junta, Trinidad, and other points have been heard and whole sections of the grandstand have been reserved on special request for the crowds that will attend from Canon, City, Pueblo and Cripple Creek. Special auto parties are to go from Colorado Springs.

The Florence ball team has been recruited from all sections, daily practices is being engaged in, and, with the choice of a White Sox battery, as promised, the game will be a fast one, on both sides.

The Florence diamond, always recognized as the best in the state outside of Denver, has been worked to perfection, and is in perfect condition. Additional seating capacity is being arranged on the ball grounds, and a large crowd is anticipated.

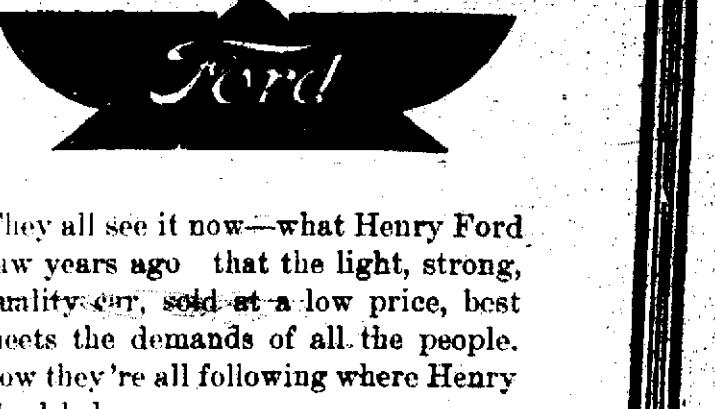

CHARLOTTE, N. C., March 28.—Brooklyn defeated the Buffalo Internationals here today, score 4 to 5.

and Creator of fashion

COPYRIGHT 1914 CLARA E SIMCOX 535 5TH AVE N.Y.

UCH of the art of dressing lies in the way we wear our garments. As Alphonse Daudet so aptly puts it: "Elegance is inherent; it comes not from the drapery of a skirt or the cut of a coat, but from the personality within. We either grace or render our garments grotesque, making them exquisite or vulgar in effect by the manner in which we carry them."

To dress so that each detail is but a harmonious unit which contributes to the perfection of the whole and does not arrest the attention *per se* is an art most difficult to acquire. One has such a profusion of coquettish novelties to choose from, especially this approaching season, that one's taste and judgment is apt to be temporarily thrown out of balance. The secret lies in culturing some one ingenious idea to give to a dress a personal charm and characteristic cachet, just as a florist selects as *that piece de resistance* to his bouquet some rare exotic bloom which will give to it distinction without disturbing the color symmetry of his conception.

We welcome the rerudescence of white, which comes as a refreshing oasis in a glaring desert of bizarre colors popularized by the futurists. This cool color in soft materials, such as crepe de Chine or silk voiles, gives an infinite charm to ivory complexions. Many of these white gowns are given an additional chile by touches of black and, worn in conjunction with the high, tight coiffures now in vogue, they have quite a Pierrot suggestion, which is further accentuated by the impudent little hats we are wearing. Also, in evening ti'lettes of black and white, the effect is heightened by wearing beauty spots and powdered hair, which is the latest sensation in London. Here again we are returning to the modes of the eighteenth century, but, unlike the *grande dame* of that period, who took the greater part of an hour to determine upon what part of her countenance the patch would make the best impression, we are apt to play it rather carelessly, disregarding the

A New Departure in Skirts.

It is a new figure that will be palpable in the latest tailored skirts. The silhouette will be much broader, although at the hem an extreme narrowness will still be *de rigueur*. But unlike the tight skirts of the past season that bound the feet in durance ville the newest models, though circumscribed at the ankles, have a fuller aspect, owing to the fact that they are made with gracefully manipulated shirtings or pleats. Pleats and gathers are the chief features of the ultra-fashionable tailored skirt. The pleats are arranged onto a neat, snug-fitting hip yoke, which is fairly wide in the center front and gradually narrows toward the back. With these pleated skirts is shown an underskirt of a different material. This

little skirt is quite straight and narrow and in many models only comes to the tops of the shoes. A smart skirt, which has Premet for its sponsor, is in nut brown taffeta. It is laid in wide box pleats arranged onto a narrow hip yoke. The pleats are skillfully manipulated so that they flare out widely below the knee. Beneath the taffeta is seen a little tight underskirt, patterned silk in a parchment tinted in bright colored stripes. This skirt is quite short, disclosing the shoe edge.

Premet is also making suits on this order in serge, with underskirts in pale yellow chequing the deep Tango red or Roman striped socks in the coloring. The salient feature of the deeper shades, the bright colored suit, being introduced on the outside and cuffs of the little coat.

Cheruit shows a very trim tailored model in a soft taffeta which is shirred onto a deep hip yoke. The straight, tight underskirt will hang down a few inches below the full upper skirt, is shirred all the way round, the slashes being made about six inches apart and about four inches high, the edge being bordered with a tiny box plaid.

Artistic Wraps and Jackets.

It is difficult to recall a period when the *sacque* to the three at this ed braves, braided causelines, passe-

new type of trotter, close flared sleeves and ruffles - which The upper skirt must have had decidedly seemed new to have reached the acme outward sweep, which at the same time did not detract in the least from the trimness of the moment and if one may be allowed to say, the plenitude of the next few months of which the pointed shoulder set in fine white organza. At the same time there is an

either painted or elaborately tucked and pleated, or again, there will be a brocaded exterior of a dark, durable color, boasting of lining of the most delicately painted guaze, proving once again the rule that when the *impero* is pleasing it is invariably successful. Although painted chiffon is not particularly new for linings, the textures and designs are presented to us in a new guise, so we are able to delude ourselves with the idea that we have quite the *demi-cle* if we have a flowered guaze for a *doublet*. Flowered muslins and moussetines have never had a real run for gowns. They are apt to be a little "difficult," not having enough of the subtle qualities we sum up in the one word "wearable." But, as a lining only revealed now and again, they have a picturesque value not to be overlooked or ignored, and especially when chosen in case of course they are with a contrasting effect to the color and texture of the fabric which they line. A model which I have just designed and which will appeal to the

susceptibilities of the artistic woman is in white taffeta. The jacket comes just below the hips and is trimmed with two wide Godet flounces of the same silk. The underflill, to give it the necessary flare, is wired. The lining, a delicately painted chiffon, is edged with a silver fringe to give to the fragile *doublet* some weight, a handsome silver tassel hangs pendant from the back. The neck is finished with a little collar of soft lace, which, except for the wired edge, is left to fall limply. This is edged with a narrow silver braid.

Another exquisite model is fashioned in taupe colored nion broche, the latter a design of grapes carried out in tempered futurist's colorings, while through the transparent material one catches a glint of tender green satin *doublet*, which in turn is veiled with nion in tone.

Many of the models both in evening and afternoon wraps verge on the eccentric. A Jacobean purple brocade after clipping the shoulders suddenly spreads outward, while the arms emerge from horizontal slits. Another in gold and green is a little loose jacket which comes only to the waist; then from the waist hangs a wide frill of gold lace edged with tiny gilt tassels.

Worthy of note and admirably suited for a slim woman - and who is not slim today? - is a mantua I have designed in green brocade. This has long revers and a quaint square collar at the center back covered with violet chiffon. Revers and collar are edged with a violet chenille trimming. The novelty in the cut is shown in the shirrings on the shoulders, which conveys a cape effect. A wondrously soft Godet plait

emerges mysteriously in the back apparently without any effort on the part of the couturiere. But of course this is merely a seeming. As a matter of fact, there is a great deal of skill required in the handling of these mannequins. A close inspection reveals how much of the grace of the model rests on the bias hang.

A Word About Hats.

In the nature of things it is only to be expected that when the hair is dressed high the hat should ascend in altitude, and as it happens now that the frizzles are massed on the summit of the head instead of being flattened, some of the new hats are extremely tall, and many models are tilted at a ridiculous angle. Quite refreshingly individual in style is the hat shown in the sketch (Fig. 4). It depends for its *charme* on its exquisite curves. The side brim is rolled on beautiful lines and a long, black, uncurled *taffas*, fastened with a handsome cut jet ornament, is the sole trimming. The hat is made of black imported French hair

braid about an inch and a half wide. This is sewn onto a tulie wired shape. The curved lines give the top of the hat a boat-like semblance. This is a favorite of mine among my new models.

Another veil arrangement which is particularly adapted for motoring is the long chiffon scarf arranged in tiny folds between the crown and brim of a cloche-shaped Henri II. shape. The draping is fastened tightly at the back of the *chapeau* by means of a beaded motif of passementerie in Oriental colorings. From the rear of the hat the

length of chiffon is allowed to fall in graceful sweeping drapes to the waistline in the back when not in use. Its particular advantage lies in the fact that it can be turned forward over the back of the neck when desired, much after the fashion of a swimming cap. (See Fig. 5.)

Hats, you will be surprised when we write, will always be called down over offensives, or at least a necessary when the hats are again perched on a high carriage.

To prevent head coverings, the umbrellas we'll use this spring for April showers are no longer the sensible affairs of yesterday, but are shown in many of the shades of waterproof silks becoming to winter's costume. They are small, size and compact in shape, and one of the most attractive models that caught my fancy was designed in an unusual shade of leaf-green, with a border hemstitched onto the main body of brown and amber-toned plaid. The long, thin handle was delicately mounted with pale amber, but the particular novelty of the model lies in the little round balls of amber attached to the tip of each rib, a distinctive and unique new method of ornamentation.

UCH of the art of dressing lies in the way we wear our garments. As Alphonse Daudet so aptly puts it: "Elegance is inborn; it comes not from the drapery of a skirt or the cut of a coat, but from the personality within. We either grace or render our garments grotesque, making them exquisite or vulgar in effect by the manner in which we carry them."

To dress so that each detail is but a harmonious unit which contributes to the perfection of the whole and does not arrest the attention *per se* is an art most difficult to acquire. One has such a profusion of coquettish novelties to choose from, especially this approaching season, that one's taste and judgment is apt to be temporarily thrown out of balance. The secret lies in culing some one ingenious idea to give to a dress a personal charm and characteristic cachet, just as a florist selects *as peu de résistance* to his bouquet some rare exotic bloom which will give to it distinction without disturbing the color symmetry of his conception.

We welcome the rerudescence of white, which comes as a refreshing oasis in a glaring desert of bizarre colors popularized by the futurists. This cool color in soft materials, such as crepe de Chine or silk velvets, gives an infinite charm to ivory complexions. Many of these white gowns are given an additional chic by touches of black and, worn in conjunction with the high, tight coiffures now in vogue, they have quite a Pierrot suggestion, which is further accentuated by the impudent little hats we are wearing. Also, in evening *étoffettes* of black and white, the effect is heightened by wearing beauty spots and powdered hair, which is the latest sensation in London. Here again we are returning to the modes of the eighteenth century, but, unlike the *grande dame* of that period, who took the greater part of an hour to determine upon what part of her countenance the patch would make the best impression, we are apt to place it rather carelessly, disregarding the

A New-Departure in Skirts.

It is a new figure that will be palpable in the latest tailored skirts. The silhouette will be much broader, although at the hem an extreme narrowness will still be *de rigueur*. But unlike the tight skirts of the past season that bound the feet in durance vile the newest models, though circumscribed at the ankles, have a fuller aspect, owing to the fact that they are made with gracefully manipulated shirtings or pleats. Pleats and gathers are the chief features of the ultra-fashionable tailored skirt. The pleats are arranged onto a neat, snug fitting hip yoke, which is fairly wide in the center front and gradually narrows toward the back. With these pleated skirts is shown an underskirt of a different material. This

little skirt is quite straight and narrow and in many models only comes to the tops of the shoes. A smart skirt, which has Premet for its sponsor, is in nut brown taffeta. It is laid in wide box pleats arranged onto a narrow hip yoke. The pleats are skillfully manipulated so that they flare out widely below the knee. Beneath the taffeta is seen a little tight underskirt in bright colored crepe. This skirt is quite short, disclosing the shoe entirely.

Premet is also making suits on this order in serge, with underskirts in plaid or Roman striped silks in the deeper shades, the bright colored fabric being also introduced on the collar and cuffs of the little coat.

Cherlitt shows a chic little semi-tailored model in a soft taffeta which is shifted onto a deep hip yoke. The straight tight underskirt which comes a few inches below the full upper skirt is slashed all the way round, the slashes being made about six inches apart and about four inches high, the edge being bordered with a tiny box pleat.

Ingenuity is certainly required to give the *cachet* to the date that this new type of *trotteur* skirt demands. The upper skirt must have a decidedly outward sweep, which at the same time must not detract in any way from the effect of tailored simplicity.

Another smart style of skirt is shown in Fig. 2. This is one of my newest designs and depicts the draped plumed jacket effect at the back of the skirt and also jacket like our grandmothers wore on the poached back to the corsage. This is the wrap of the moment and if one model is made in black taffeta with a double plumed chapeau sette in fine white organdy, lace, etc., As the season strengthens there is an passementerie motifs in oriental colors, of various reds, orange, yellow, and studded with beads in blue, red, the soft supple order lined, mark you, and white decorate the front of the with the delightful inconsistency of corsage and also impart a chic finish to the decide oftentimes with chiton

either plumed or elaborately tucked and pleated, or again, there will be a broche exterior of a dark, durable color, boasting of a lining of the most delicately painted gauze, proving once again the rule that when the *impression* is pleasing it is invariably successful. Although painted chiffon is not particularly new for linings, the textures and designs are presented to us in a new guise, so we are able to delude ourselves with the idea that we have quite the *deuxième étoile* if we have a flowered gauze for a *doublure*. Flowered muslins and mousselines have never had a real run for gowns. They are apt to be a little difficult, not having enough of the subtle qualities we sum up in the one word "wearable". But, as a lining only revealed now and again, they have a picturesque value not to be overlooked or ignored, and especially when chosen (*as of course they are*) with a contrasting effect to the color and texture of the fabric which they line. A model which I have just designed and which will appeal to the

susceptibilities of the artistic woman is in white taffeta. The jacket comes just below the hips and is trimmed with two wide Godet bounces of the same silk. The underfrill, to give it the necessary flare, is wired. The lining, a delicately painted chiffon, is edged with a silver fringe to give to the fragile *doublure* some weight, a handsome silver tassel hangs pendant from the back. The neck is finished with a little collar of soft lace, which, except for the wired edge, is left to fall limply. This is edged with a narrow silver braid.

Another exquisite model is fashioned in taupe colored nion broche, the latter a design of grapes carried out in tempered futurist's colorings, while through the transparent material one catches a glint of tender green satin *doublure*, which in turn is veiled with nion in tone.

Many of the models both in evening and afternoon wraps verge on the eccentric. A Jacobean purple broadcloth after clipping the shoulders suddenly spreads outward, while the arms emerge from horizontal slits. Another in gold and green is a little loose jacket which comes only to the waist; then from the waist hangs a wide frill of gold lace edged with tiny gilt tassels.

Worthy of note and admirably suited for a slim woman—and who is not slim today?—is a mantua I have designed in green brocade. This has long revers and a quaint square collar at the center back covered with violet chiffon. Revers and collar are edged with a violet chenille trimming. The novelty in the cut is shown in the shirrings on the shoulders, which conveys a cape effect. A wondrously soft Godet pleat

emerges mysteriously in the back apparently without any effort on the part of the couturiere. But of course this is merely a seeming. As a matter of fact, there is a great deal of skill required in the handling of these mannequins. A close inspection reveals how much of the grace of the model rests on the bias hang.

A Word About Hats.

In the nature of things it is only to be expected that when the hair is dressed high the hat should ascend in altitude, and as it happens now that the tresses are massed on the summit of the head instead of being flattened, some of the new hats are extremely tall, and many models are tilted at a ridiculous angle. Quite refreshingly individual in style is the hat shown in the sketch (Fig. 4). It depends for its *cachet* on its exquisite curves. The side brim is rolled on beautiful lines and a long, black, uncurled *fontaine*, fastened with a handsome cut jet ornament, is the sole trimming. The hat is made of black imported French hair

braid about an inch and a half wide. This is sown onto a tulle wired shape. The curved lines give the top of the hat a boat-like semblance. This is a favorite of mine among my new models.

Another veil arrangement which is particularly adapted for motoring is the long chiffon scarf arranged in gay folds between the crown and brim of a close-fitting Henri II. shape. The draping is fastened tightly at the back of the *chapeau* by means of a beaded motif of passementerie in Oriental colorings. From the rear of the hat the

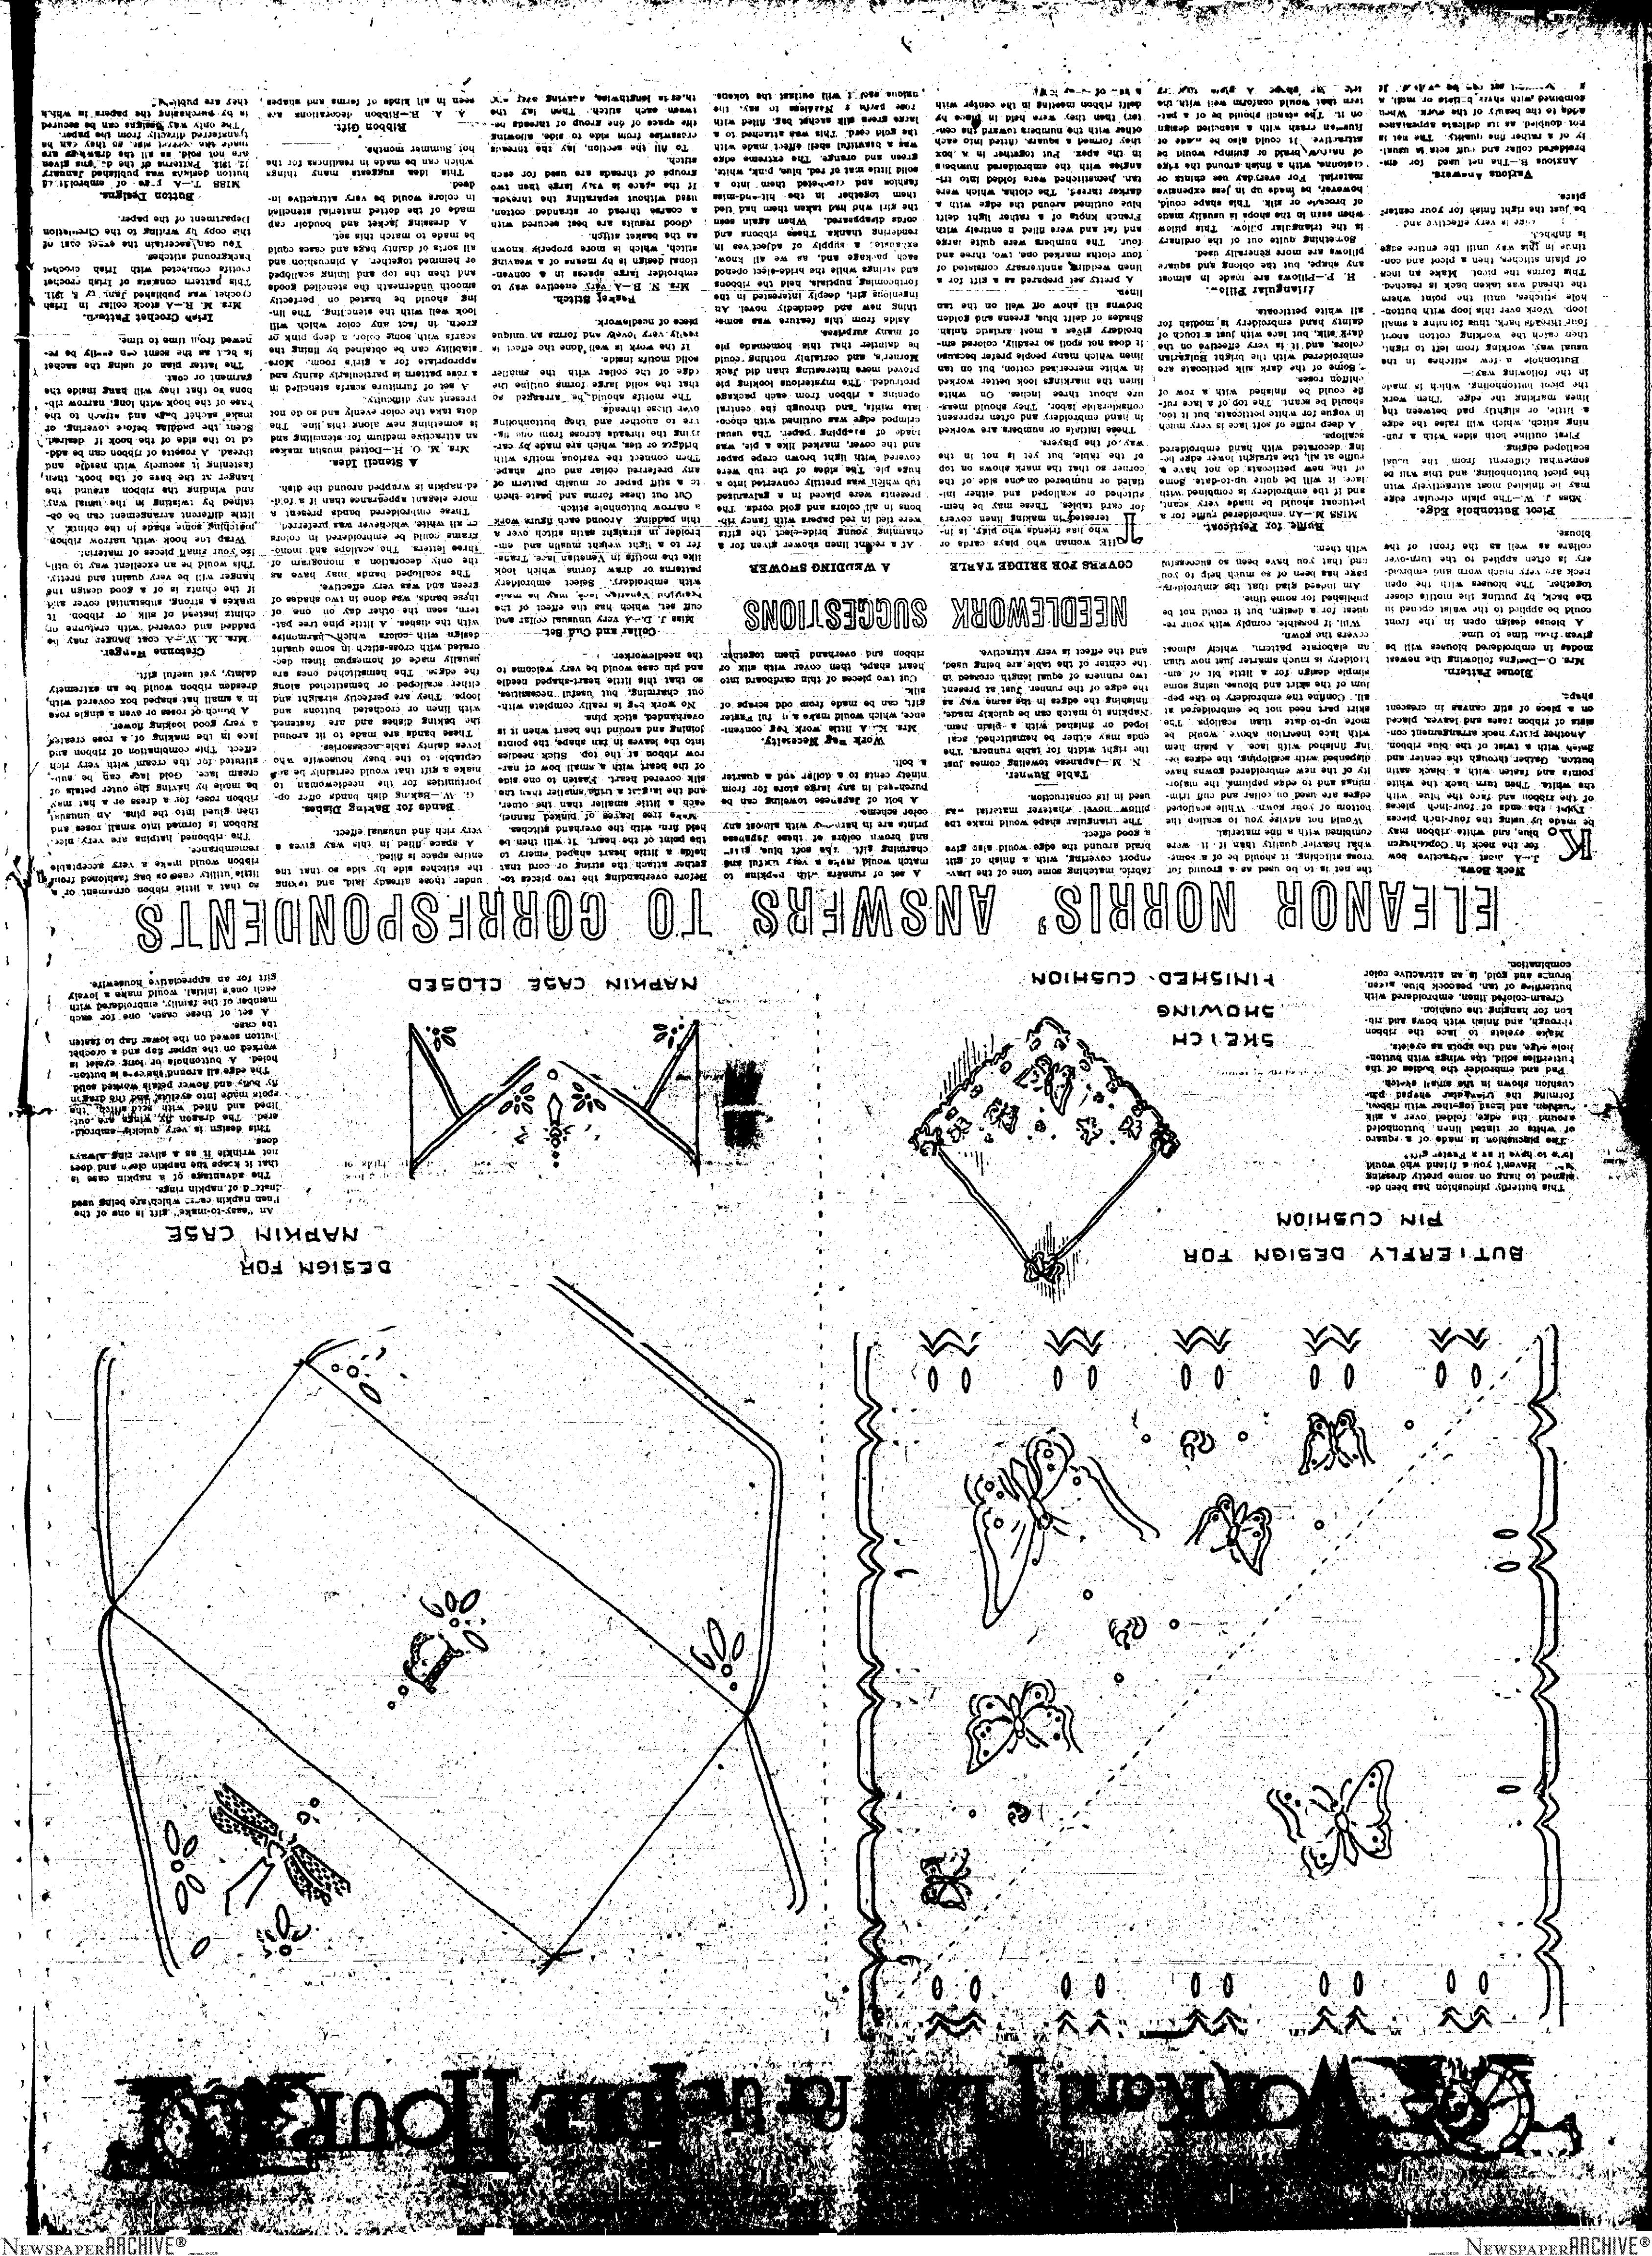

length of chiffon is allowed to fall in a graceful sweep down to the waistline in the back when not in use. Its particular advantage lies in the fact that it can be turned forward over the hat and face when desired, much after the fashion of a morning veil (See Fig. 5).

Hats, which became useless when we wore our chaperons pulled down over our ears, are once more a necessity now that hats are again perched on a high culture.

To revert to head coverings, the umbrellas we will use this spring for April showers are no longer the sombre affairs of former years, but are shown in many light shades of waterproof silks, chintzes, etc., with one's costume. They are small in size and coquettish in shape, and one of the most attractive models that caught my fancy was decorated in a beautiful shade of leaf-brown with a border hemstitched onto the main body of brown and amber-toned plaid. The long, slim handle was delicately mounted with pale amber, but the particular novelty of the umbrella lies in the little round balls of amber affixed to the tip of each rib, a delightful and wholly new method of ornamentation.

SKINNED RODENTS

Naughty On the Stage, But Good At Home

Nazimova Disproves
Theory of "The Man We
Act We Are"--She
Excels in Portraying the
Part of Wicked Women in
Spite of Sweet Character

Does acting a certain part on a stage make players assume that character when away from the theater?

When the amateur thespian assumes a certain role for one performance he is likely to be so filled with the lines and character delineation that he can hardly keep from breaking out when among others, repeating his lines and striking various attitudes he has learned to strike when on the stage. Psychologists and neurologists have declared certain parts we play on the stage are a part of us, to extend--

thoroughly to the chief executive of gay offending and foreign nation we assuming any treaty agreement yester-day life, the proposal of Senator Lott of gloomy morality leader. Senator take their part urge a resolution he,

which will express there are players American who seemed to bear out that idea. They are very much like the men they act. Madame Alla Nazimova, however, in common with many others, seems to be a direct contradiction to such a law. Nazimova has forty different moods in a day. She loves repertoire because then she can change her character on the stage every night.

When we go to the theater and see Nazimova playing the part of some naughty or scheming woman, we get a mental impression that she is bad. In the high class theater that sort of decision is almost as certain as in the melodrama house. In the melodrama we hate the villain as much as we love the hero. We hiss the rascal when he appears on the stage. We can hardly bear the looks of him and all that is because he is just a good actor doing his part well.

"The man we act we are," is true only for the time we are on the stage. At home the villain may be as meek as a lamb. The gun-toting feudist may not know how to hit the bull's-eye at ten yards. The death-defying hero on the stage may become in private life, a man who refuses to give his seat to a woman off the street car.

So it is with Nazimova. At her home in Portchester, N. Y., she is an ideal home-maker. Unlike the designing Bella Donna, which she portrays on the stage, her more "awful" designing at her home is to figure how to make roses grow in her beautiful garden.

NAZIMOVA DECLARES BELLA DONNA IS BAD.

Madame Nazimova recently said: "I don't suppose that there could ever have been a worse woman than Bella Donna, although the stage has had many women with past--Camille, Tanqueray, Madame, Sophie, Cleopatra--still, she is certainly the wickedest one that I have ever acted," and Madame Nazimova, when one considers she has played a great range of parts since she became one of the foremost of the English-speaking actresses, coming from her own lips it would appear that this statement can be relied upon. The Bella Donna of Robert Hichens' novel, the dramatic version of which was made by James Bernard Fagan, and is now being used by Nazimova, is a woman who has passed her first youth.

The author says that she was wed and was the daughter of aristocratic but extravagant parents. To a great extent Ruby Chepstow's life was probably influenced by her parents' pecuniary troubles. Her fame in London society, as a beauty, was very great; in fact she was the most talked-of woman of her time. Her divorce from Chepstow ruined her socially, and then began a period of her life which

she felt herself growing old--at the opening of the story she is past 40, but willingly admits to 38--it becomes necessary for her to make a new alliance. She no longer fascinates the older men, but she still allures the younger generation--the "tame trolles."

LEARN TO ACT IN MOSCOW SCHOOL.

Nazimova became an actress by accident. When 16 years old she was sent to Moscow to learn to be a stage manager. All her life before had been spent in the little town of Yalta in Russia in poverty. Amateur theatricals were engaged in there and Nazimova was one of the actresses. Her relatives, however, believed her head was better than that of the average Yaltan and they insisted that with a few years of teaching she could be manager.

At Moscow she decided on a theatrical career. Her teachers quickly saw the possibilities of the wonderful woman and three years later she went on the Russian stage. On account of taking parts dispensing with a stage manager, she decided she would have to leave the country speedily. She fled to America in 1906, and instantly won success in America.

She was married a year ago.

Nazimova is friendly to everyone. She often assists struggling players, offering them suggestions of

benefit. Last season she even went so far as to give a special performance for a vaudeville actress, who wished to mimic Nazimova on the stage.

Command performances are generally given in Europe before crowned heads, and the honor to appear before small and select audiences is eagerly sought after by all classes of entertainers. Miss Cecilia Loftus, while not exactly a crowned head, is the actress who had the distinguished honor of having a performance given for her and for her alone by the distinguished Russian actress, Madame Nazimova. It was late last June, the city was San Francisco. Miss Loftus was appearing in vaudeville at one theater and Madame Nazimova was at another. These women are very great personal friends and one of Miss Loftus' best impersonations of Madame Nazimova as Norah in "A Doll's House."

Miss Loftus was most anxious to add an imitation of the distinguished Russian actress in "Bella Donna," the big scene in the fourth act especially appealed to her. Unfortunately, Miss Loftus was unable to get to the theater at the particular time she wished to study Madame's work so Madame promised her a special performance. It was given after the Wednesday mat-

inee. The big audience (mostly women) filed out of the theater and then with nobody but Miss Loftus in the house, up went the curtain on the trying fourth act, which was as carefully played as it ever was during a regular performance, and in spite of fact that Madame was very tired. When the curtain was finally rung down, Miss Loftus left her orchestra seat and went back on the stage and then Madame proceeded to go over the particular scene in detail for the benefit of the imitator, and then throwing her rudder's web cloak over the shoulders of her English sister and taking the alights and flotsam from her hair and placing it upon the head of Miss Loftus, Nazimova sat in judgment while Miss Loftus went through the scene.

"How was that?" asked the imitator.

"Pretty bad," playfully replied the imitator. "You should put your foot this way and your hips this way," demonstrated Nazimova.

"You are not an actress, my dear. Alla, you are a contortionist," laughingly asserted Miss Loftus.

REPEATS PERFORMANCE TO SHOW HOW.

"Let me show you again how it is done," said Nazimova, and changing places with Miss Loftus, she went over the scene again. Both were happy, and were really more like two school girls trying on each other's bonnets than like two actresses--the best in their spheres, trying on each other's mannerisms. Finally Miss Loftus said:

"I can't even get your tone of voice. For goodness' sake, where do you get that voice, it sounds as though it came from out of your boots, when you say: 'You fool, it's true, every word of it.'"

"It comes from farther than that," replied Nazimova.

Madame Nazimova was never able to witness Miss Loftus' impersonation, as directly after the San Francisco engagement their "trials" did not cross again.

Theater-goers have come to associate Nazimova with the parts she

that of Norah in "The Doll's House" or the Mrs. Chepstow in "Bella Donna," as daylight is from darkness. Imagine if you can, a little, brown-haired, little woman, with great big blue eyes and a firm chin, whose face is unusually pale, although she invariably keeps herself in the "pink" of physical perfection, who is bright, always smiling and fond of a joke, who is devoted to all out of door sports and who, to her friends, were she a man would be known as a "rattling good fellow," and you have Alla Nazimova, the distinguished Russian actress, who sways her audience at her will.

There is nothing either languid, erotic or eerie about the real Alla Nazimova--quite to the contrary--she is quick, impulsive and captivating. She is a perfectly normal woman, every inch of her, and she is absolutely idolized by every member of her company and by every one else who comes in contact with her long enough to penetrate that "outer shell" with which all geniuses are supposed to be armed. Her early training in the theater was particularly arduous, but in those years Nazimova learned a very great deal.

First, a course at the government dramatic school is Moscow. Then two years at the Artistic Theater where she did everything that was expected of her from playing supernumerary to "small parts" and then two more years playing leading business in the smaller Russian cities in the local stock companies. But it was playing these 400 odd parts and this training that has made the actress a really remarkable stage manager and given her the technique she uses so effectively at the present time.

But it was playing these 400 odd parts and this training that has made the actress a really remarkable stage manager and given her the technique she uses so effectively at the present time.

Then information, according to Mexico and along the Rio Grande border as similar to us affecting a Banker or a Vanderbilt would be in the United States, became known recently when his departure for Pasadena, Calif. He was accompanied by his luggage, but the usual retinue of servants.

Near Pasadena Terrazas engaged to buy or lease a small ranch, where he can make a modest living. He is one of those who see no prospect of peace in his native land, and that tranquility is perturbed the inmates of the east. Terrazas' family, but not the estimated \$100,000,000 fortune, in America, will be distributed among his children, but the usual retinue of servants, or were expected by the enemy.

A recent instance was the \$1,000,000 ransom demanded for the release of Luis, Jr. He was incarcerated in the Municipal Palace at Chihuahua, but destined to contribute until he was taken out, beaten with the flat of a sword and a noose passed around his neck and gently tightened. In this predicament he contributed \$500,000. At the ready, he was then permitted to join his father. The additional ransom now demanded is \$2,000,000, but it is believed that General Alvaro Obregon prefers to hold Luis as a hostage to deter other members of the family from financing a new revolt in the North to harass the rebel rear on its march to Torreon.

He was then permitted to join his father. The additional ransom now demanded is \$2,000,000, but it is believed that General Alvaro Obregon prefers to hold Luis as a hostage to deter other members of the family from financing a new revolt in the North to harass the rebel rear on its march to Torreon.

He was then permitted to join his father. The additional ransom now demanded is \$2,000,000, but it is believed that General Alvaro Obregon prefers to hold Luis as a hostage to deter other members of the family from financing a new revolt in the North to harass the rebel rear on its march to Torreon.

He was then permitted to join his father. The additional ransom now demanded is \$2,000,000, but it is believed that General Alvaro Obregon prefers to hold Luis as a hostage to deter other members of the family from financing a new revolt in the North to harass the rebel rear on its march to Torreon.

He was then permitted to join his father. Naughty On the Stage, But Good At Home

Nazimova Disproves
Theory of "The Man We
Act We Are"--She
Excels in Portraying the
Part of Wicked Women in
Spite of Sweet Character

Does acting a certain part on a stage make players assume that character when away from the theater?

When the amateur thespian assumes a certain role for one performance he is likely to be so filled with the lines and character delineation that he can hardly keep from breaking out when among others repeating his lines and striking various attitudes he has learned to strike when on the stage. Psychologists and neurologists have declared that the parts we play on the stage become a part of us.

A lot of gay life we assume in our day life. A part of gloomy take their part

there are players

that

seem to bear out that

idea. They are very much like the men they act. Madame Alla Nazimova, however, in common with many others, seems to be a direct contradiction to such a law. Nazimova has forty different moods in a day. She loves reporting because then she can change her character on the stage every night.

When we go to the theater and see Nazimova playing the part of a wicked or scheming woman, we get a mental impression that she is bad. In the high class theater that sort of decision is almost as certain as in the melodrama house. In the melodrama we hate the villain as much as we love the hero. We kiss the rascal when he appears on the stage. We can hardly bear the looks of him and all that is because he is just a good actor doing his part well.

"The man we act we are," is true only for the time we are on the stage. At home the villain may be as mean as a lamb. The gun-toting feudist may not know how to hit the bull's-eye at ten yards. The death-defying hero on the stage may become in private life, a man who refuses to give his seat to a woman on the street car.

The man we act we are,

is true

only

for

the

time

we

are

on

the

stage.

So it is with Nazimova. At her home in Portchester, N. Y., she is an ideal home-maker. Unlike the designing Bella Donna, which she portrays on the stage, her most "awful" designing at her home is to figure how to make roses grow in her beautiful garden.

NAZIMOVA DECLARES

BELLA DONNA IS BAD.

Madame Nazimova recently said:

"I don't suppose that there could ever have been a worse woman than Bella Donna, although the stage has had many women with past-Camilles, Tanquerays, Mornons, Sapho, Cleopatra—still, she is certainly the wickedest one that I have ever acted," and Madame Nazimova, when one considers she has played a great range of parts since she became one of the foremost of the English-speaking actresses, coming from her own lips, it would appear that this statement could be relied upon. The Bella Donna of Robert Hichens' novel, the dramatic version of which was made by James Bernard Fagan, and is now being used by Nazimova, is a woman who has passed her fiftieth year.

The author says that she was well-born and was the daughter of aristocratic but extravagant parents. To a great extent Ruby Chepstow's life was probably influenced by her parents' pecuniary troubles. Her fame in London society, as a beauty, was very great; in fact, they daubed her Bella Donna, and she was the most talked-of woman of her time. Her divorce from Chepstow ruined her socially, and then began a period of her life which

she felt herself growing older at the opening of the story she is past 40, but willingly admits to 38—it becomes necessary for her to make a new alliance. She no longer fascinates the older men, but she still allure the younger generation—the "tame vipers."

LEARN TO ACT IN MOSCOW SCHOOL

Nazimova is a young actress by accident. When 16 years old she was sent to Moscow to learn to be a stage manager. All her life before had been spent in the little town of Yalta in Russia in poverty. Amateur theatricals were encouraged in there and Nazimova was one of the actresses. Her relatives, however, believed her head was better than that of the average Yaltan and thus insisted that with a few years of teaching she could be manager.

At Moscow she decided on a theatrical career. Her teachers quickly saw the possibilities of the wonderful woman and three years later she went on the Russian stage. On account of taking parts displeasing to the Russian Government she decided she would have to leave the country speedily. She fled to America in 1906, and instantly won success in America.

Her end-deserted by every one going out into the desert alone was the only fitting climax the novelist could devise for such a heroine who had all the way through, in many ways, the character unquestionably being forcibly a beautiful reptile—a cobra. The cobra, with its brilliant colorings, could furnish the analogy. Still, it is only when the dominant passion comes

to Bella Donna that the snake assumes ascendancy in her nature and she is alike prepared for offense and defense. And so she is willing to go to any length to get what she thinks is her heart's desire.

Her relatives, however, believed her head was better than that of the average Yaltan and thus insisted that with a few years of teaching she could be manager.

At Moscow she decided on a theatrical career. Her teachers quickly saw the possibilities of the wonderful woman and three years later she went on the Russian stage. On account of taking parts displeasing to the Russian Government she decided she would have to leave the country speedily. She fled to America in 1906, and instantly won success in America.

She was married a year ago. Nazimova is friends to many. She often aids struggling players, offering them suggestions of

benefit. Last season she even went so far as to give a special performance for a vaudeville actress, who wished to mimic Nazimova on the stage.

Command performances are generally given in Europe. Before crowned heads, and the honor to appear before small and select audiences is eagerly sought after by all classes of entertainers. Miss Cecilia Loftus, while not exactly a crowned head, is the actress who had the distinguished honor of having a performance given for her and for her alone by the distinguished Russian actress, Madame Nazimova. It was late last June the city was San Francisco. Miss Loftus was then appearing in vaudeville at one theater and Madame Nazimova was at another. These women are very great personal friends and one of Miss Loftus' best impersonations is of Madame Nazimova as Norah in "A Doll's House."

Miss Loftus was most anxious to add an imitation of the distinguished Russian actress in "Bella Donna," the big scene in the fourth act especially appealed to her. Unfortunately, Miss Loftus was unable to get to the theater at the particular time she wished to study Madame's walk, so madam compromised her a special performance. It was given after the Wednesday mat-

inee. The big audience (mostly women) filed out of the theater and then with nobody but Miss Loftus in the house, up went the curtain on the trying fourth act, which was as carefully played as it ever was during a regular performance, and in spite of fact that Madame was very, very tired. When the curtain was fully rung down, Miss Loftus left her orchestra seat and went back on the stage and then Madame proceeded to go over the particular scene in detail for the benefit of the imitator, and then throwing her spider's web cloak over the shoulders of her English sister and taking the aigrette and fillet from her hair and placing it upon the head of Miss Loftus, Nazimova sat in judgment while Miss Loftus went through the scene.

"How was that?" asked the imitator.

"Pretty bad," playfully replied the imitator. "You should put your foot this way and your hips this way," demonstrated Nazimova.

"You are not an actress, my dear Alla, you are a contortionist," laughingly asserted Miss Loftus.

REPEATS PERFORMANCE TO SHOW HOW.

"Let me show you again how it is done," said Nazimova, and changing places with Miss Loftus she went over the scene again. Both were happy, and were really more like two school girls trying on each other's bonnets than like two actresses—the best in their spheres, trying on each other's mannerisms. Finally Miss Loftus said:

"I can't even get your tone of voice. For goodness sake, where do you get that voice, it sounds as though it came from out of your boots when you say: 'You fool, it's true, every word of it!'"

"It comes from farther than that," replied Nazimova.

Madame Nazimova was never able to witness Miss Loftus' impersonation, as directly after the San Francisco engagement their "trails" did not cross again.

Theater-goers have come to associate Nazimova with the parts she

that of (Norah) in "The Doll's House" or the Mrs. Chepstow in "Bella Donna," as daylight is from darkness. Imagine if you can, a little, brown-haired little woman, with great big blue eyes and a firm chin, whose face is unusually pale, although she invariably keeps herself in the "pink" of physical perfection, who is bright, always smiling and fond of a joke, who is devoted to all out of door sports and who, to her friends, were she a man would be known as a "rattling good fellow," and you have Alla Nazimova, the distinguished Russian actress, who speaks her audience at her will.

There is nothing either languorous or eerie about the new Alla Nazimova—quite to the contrary, she is quick, impulsive and captivating. She is a perfectly normal woman, every inch of her, and she is absolutely idolized by every member of her company and by every one else who comes in contact with her long enough to penetrate that "outer shell" with which all geniuses are supposed to be armed. Her early training in the theater was particularly arduous, but in those years Nazimova learned a very great deal. First, a course at the government dramatic school is Moscow. Then two years at the Artistic Theater where she did everything that was asked of her from playing supernumerary to "small parts" and then two more years playing leading business in the smaller Russian cities in the local stock companies. But she was playing these 400 odd parts and this training that has made the actress a really remarkable stage manager and given her the technique she uses so effectively at the present time.

MEXICAN REFUGEE'S POVERTY

His immense income tied up for three years of revolutions. Alberto Teresian, of the family whose name in Mexico is a synonym for great wealth, has been compelled to seek a means of livelihood.

This information, astounding in Mexico and along the Rio Grande border as similar news affecting a Rockefeller or a Vanderbilt would be in the United States, became known recently with a departure for Pasadena, Cal. He was accompanied by his family, but not the usual retinue of servants.

Near Pasadena Teresian owns a house or house a small farm, where he can make a modest living. He is one of those who see no prospect of getting back his native land and until independence restored the in spite of the vast Teresian family fortune estimated at \$100,000 to \$10,000,000 in American gold, will be their. Even in the event of peace, money may be lost, for the people have decided to confiscate.

"I do not mean going to work, it may be a good thing," he said to friends before his departure, and then smiled at his own remarks for his practicality with money has been a strong character of which I have been writing in London and Paris, Mexico, Texas, Canada and New York.

Teresian always has worked as a rich man but on arrival he was Governor of the State of Chihuahua but he did not work for a living. Now he is to live on bread and water.

He learned in a short time and performed his official duties in his own language and his friends say he will be able to meet an emergency on the spot.

The Teresian fortune was taken by General Teresian, who prefers to remain in the stage to deter other members of the family from financing a new revolt in the North to harass the rebel rear on its march to Mexico.

Cabared. You get a lot of turkey trot for the bill of fare.

For a dollar you get the cash for turkey hash. You get no turkey there.

"Well, my dear, I'm getting
out of shape again," he said.
"Don't break my heart."
"I have no time to go to bed now."
"I'll see you later." He turned and
walked away.

The End.

THE END.

THE END.
